This plan would rename the current Missouri Department of Health to the Missouri Department of Health and Senior Services and incorporate the Division of Aging currently located within the Department of Social Services into the renamed department.

The Missouri Department of Health is responsible for protecting and promoting the health of the population of Missouri. This is carried out through the assessment of the population's health, identification of health threats and needs, development of policies and priorities, and the assurance of appropriate responses. We implement these core public health functions through collaborative relationships with public and private entities, communities and citizens.

A-2 APPENDIX A—REORGANIZATION PLANS

on issues relating to their respective areas of expertise.

A Memorandum of Understanding will be developed between the current Department of Health and the Department of Social Services and carried forward to the renamed Department of Health and Senior Services and the Department of Social Services that will provide guidance for the smooth transition and maintenance of specific issues that impact staff and services of both departments.

These Memorandums will include, but not be limited to, issues relating to accounting, chain of command for interim reporting, contracts, data processing, FY02 budget to be transferred, if passed, grants, hiring, legal services, office space (including leasing, utilities, telecommunications, etc.), payroll, personnel and office resources, purchasing, SAM II, state cars, any collective bargaining agreements, vacancy management and warehousing issues.

REORGANIZATION PLAN NO. 1 2006

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE NINETY-THIRD GENERAL ASSEMBLY THE STATE OF MISSOURI:

The elimination of legislatively created barriers to consolidation in the financial industry has allowed financial services companies to embark upon an unprecedented period of mergers and acquisitions resulting in companies now offering "one stop shopping" for financial products previously sold by entities strictly separated by law. Proper regulation of this changing field requires the similar consolidation of insurance and financial regulation within the state. Consolidating these responsibilities into one department makes sense administratively and as a matter of public policy because it will allow for a more coherent and comprehensive approach to regulating professionals, financial services, financial products and transactions.

By virtue of the authority vested in me by the Constitution and laws of the State of Missouri, including the Omnibus State Reorganization Act of 1974 and sections 26.500 through 26.540, RSMo, I hereby transmit Reorganization Plan#1 of 2006, by Executive Order 06-04, to remove the Division of Finance, State Banking Board, Division of Credit Unions, and the Division of Professional Registration from the Department of Economic Development and assign their responsibilities and functions to the Department of Insurance. The Department of Insurance will be renamed the Department of Insurance, Financial Institutions and Professional Registration.

The Division of Professional Registration will be included in this consolidation because the new department's primary function will be the regulation of industries and individuals, which compliments the division's primary function of regulating various professions.

SPECIFIC DEPARTMENT STRUCTURE

The new department will be under the administrative authority of the Director of the Department of Insurance, Financial Institutions and Professional Registration who shall appoint a Deputy Director. The Director will be responsible for the management of the department and administration of its programs and services.

The Deputy Director's primary responsibility shall be assisting the Director with the regulation of the insurance industry. The Deputy Director shall report directly to the Director. There shall be a Division of Consumer Affairs and as many other divisions of insurance as the Director deems necessary for the efficient regulation of the insurance industry. Division directors shall report directly to the Deputy Director.

The Division of Professional Registration, Division of Finance, State Banking Board, and Division of Credit Unions shall be transferred, by Type III transfer, to the Department of Insurance, Financial and Professional Registration. The State Banking Board and the Directors of the Division of Professional Registration, Division of Credit Unions and the Division of Finance shall continue to be appointed and shall retain all authority as currently provided by law.

The department shall be structured in a manner consistent with the following organizational framework:

APPENDIX A — REORGANIZATION PLANS

1. Insurance

- a. Office of Director Responsible for policy decisions, legislation, communications and regulations. Shall consist of the department director, deputy director, legal staff, public information staff, legislative coordinator and support staff.
- b. Division of Financial Regulation Responsible for conducting financial analysis and examinations of insurers domiciled in Missouri to verify their financial condition, compliance with Missouri laws, and accepted accounting practices.
- c. Division of Market Regulation Responsible for regulating the performance of insurers in the marketplace.
- d. Division of Consumer Affairs Assists the public in resolving complaints, providing information on insurance policies and investigating insurance fraud.
- e. Division of Resource Administration Oversees licensing, budget, management information systems and support services.
- 2. Division of Professional Registration Responsible for licensing qualified professionals, appropriately enforcing standards and maintaining an open communication network with the over 400,000 licensees in order to encourage the development of professional services throughout the state. This division shall be under the management and authority of the Director of Professional Registration.
- 3. Division of Finance Responsible for the execution of the laws relating to banks, trust companies, savings and loans, and the banking business of this state; and of the laws relating to persons, co-partnerships and corporations engaged in the small loan business in this state.
- 4. State Banking Board Advises the director of finance as to the proper administration of his office and the banking laws of this state and recommends statutory amendments to the general assembly. Also handles appeals from certain decisions and orders of the commissioner of finance; and
- 5. Division of Credit Unions Responsible for the examination, supervision, chartering, merger and liquidation of all state-chartered credit unions. The division also responds to consumer requests or complaints in regard to credit union services or operations.

Respectfully submitted,

/s/ Matt Blunt

EXECUTIVE ORDER 06-04

WHEREAS, the State Banking Board was created pursuant to Section 361.092 RSMo; and

WHEREAS, the Division of Credit Unions was created pursuant to Section 620.010 RSMo; and

WHEREAS, I am committed to integrating executive branch operations to ensure that the state delivers quality services in the most accessible manner and at the lowest cost to taxpayers.

REORGANIZATION PLAN NO. 2 2006

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE NINETY-THIRD GENERAL ASSEMBLY THE STATE OF MISSOURI:

By virtue of the authority vested in me by the Constitution and laws of the State of Missouri, including the Omnibus State Reorganization Act of 1974 and sections 26.500 through 26.540, RSMo, I hereby transmit Reorganization Plan No. 2 of 2006, by Executive Order 06-05, to transfer the Missouri Rx Plan Advisory Commission from the Department of Health and Senior Services and assign it, and all of its responsibilities and functions, to the Department of Social Services.

The transfer of the Missouri Rx Plan Advisory Commission from the Department of Health and Senior Services to the Department of Social Services will improve efficiencies within state government, as the Department of Social Services is tasked with administering the state's pharmaceuticals program, popularly known as "The Missouri Rx Plan".

The Missouri Rx Plan Advisory Commission and the Department of Social Services currently have similar and overlapping functions, which results in the duplication of efforts and waste that can be eliminated by this consolidation. Further, combining these responsibilities into one department makes sense administratively and as a matter of public policy because it will allow a more coherent and comprehensive approach to administering and promoting the Missouri Rx Plan.

SPECIFIC DEPARTMENT STRUCTURE

The Missouri Rx Plan Advisory Commission will retain all functions and authority as provided by law. The Department of Social Services shall furnish administrative support and staff as is necessary for the effective operation of the Missouri Rx Plan Advisory Commission.

WHEREAS, the Commission provides advice on guidelines, policies, and procedures necessary to establish the Missouri Rx plan; educates Missouri residents on quality prescription drug programs and cost-containment strategies in medication therapy; and assists Missouri residents in enrolling or accessing prescription drug assistance programs for which they are eligible; and

A - 30 APPENDIX A — REORGANIZATION PLANS

WHEREAS, the Missouri Rx Plan was established pursuant to Section 208.782, RSMo and assigned to the Department of Social Services; and

WHEREAS, the purpose of the Missouri Rx Plan is to provide certain pharmaceutical benefits to certain elderly and disabled residents of this state, to facilitate coordination of benefits between the Missouri Rx plan and the federal Medicare Part D drug benefit program, as well as to enroll such individuals in said program; and

WHEREAS, consolidation of the Commission and the Missouri Rx Plan within one department would increase efficiencies and eliminate duplication of efforts and is a component of the Governor's Executive Branch Reorganization Plan of 2006; and

WHEREAS, I am committed to integrating executive branch operations to ensure that the state delivers quality services in the most accessible manner and at the lowest cost to taxpayers.

NOW, THEREFORE, I, MATT BLUNT, GOVERNOR OF THE STATE OF MISSOURI, by virtue of the authority vested in me by the Constitution and the Laws of the State of Missouri, do hereby order the Missouri Department of Social Services and the Missouri Department of Health and Senior Services, to cooperate to:

- Transfer all the authority, powers, duties, functions, records, personnel, property, contracts, budgets, matters pending, and other pertinent vestiges of the Missouri Rx Plan Advisory Commission from the Department of Health and Senior Services to the Department of Social Services; and

REORGANIZATION PLAN NO. 4 2006

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE NINETY-THIRD GENERAL ASSEMBLY THE STATE OF MISSOURI:

By virtue of the authority vested in me by the Constitution and laws of the State of Missouri, including the Omnibus State Reorganization Act of 1974 and sections 26.500 through 26.540, RSMo, I hereby transmit Reorganization Plan No. 4 of 2006, by Executive Order 06-07, to transfer the Missouri Life Sciences Research Board from the Office of Administration and assign it, and all of its responsibilities and functions, to the Department of Economic Development.

The transfer of the Missouri Life Sciences Research Board from the Office of Administration to the Department of Economic Development will improve efficiencies within state government, as the Department of Economic Development currently administers other programs and state initiatives promoting life sciences in Missouri.

Further, because the Missouri Life Sciences Research Board is responsible for the management, governance, and control of moneys appropriated from the Life Sciences Research Trust Fund, transferring the Board to the department responsible for promoting life science initiatives makes sense administratively and as a matter of public policy because it will allow a more coherent and comprehensive approach to allocating resources for the promotion of Missouri as a leading center for life sciences research.

SPECIFIC DEPARTMENT STRUCTURE

The Missouri Life Sciences Research Board will retain all functions and authority as provided by law. The Department of Economic Development shall furnish administrative support and staff as is necessary for the effective operation of the Missouri Life Sciences Research Board.

Respectfully submitted,

/s/ Matt Blunt

WHEREAS, the Missouri Life Sciences Research Board was created by section 196.1103, RSMo, and is currently assigned to the Office of Administration; and

WHEREAS, the Board is responsible for the management, governance, and control of moneys appropriated from the Life Sciences Research Trust Fund; and

A-34 APPENDIX A—REORGANIZATION PLANS

WHEREAS, the Life Sciences Research Trust Fund was established to receive funds from the state's portion of the tobacco Master Settlement Agreement; and

WHEREAS, life sciences is a fast-emerging industry that is an integral part of Missouri's economy; and

WHEREAS, the work of the Missouri Life Sciences Research Board would be enhanced by a move to the Department of Economic Development where other state initiatives promoting life sciences in Missouri are located; and

WHEREAS, the transfer of the Missouri Life Sciences Research Board would better serve Missouri's citizens by increasing efficiencies and is a component of the Governor's Executive Branch Reorganization Plan of 2006; and

WHEREAS, I am committed to integrating executive branch operations to ensure that the state delivers quality services in the most accessible manner and at the lowest cost to taxpayers.

NOW, THEREFORE, I, MATT BLUNT, GOVERNOR OF THE STATE OF MISSOURI, by virtue of the authority vested in me by the Constitution and the Laws of the State of Missouri, do hereby order the Missouri Office of Administration and the Missouri Department of Economic Development to cooperate to:

- Transfer all the authority, powers, duties, functions, records, personnel, property, contracts, budgets, matters pending, and other pertinent vestiges of Missouri Life Sciences Research Board from the Office of Administration to the Department of Economic Development, by Type III transfer, as defined under the Reorganization Act of 1974; and

- 3. Transfer the responsibility for staff support for the Missouri Life Sciences Research Board from the Office of Administration to the Department of Economic Development; and
- 4. Take the steps necessary to maintain compliance with federal requirements, so as not to jeopardize federal financial participation with this consolidation.

This Order shall become effective no sooner than August 28, 2006 unless disapproved within sixty days of its submission to the Second Regular Session of the 93rd General Assembly.

Commissioner of Administration

Enclosures

Office of Administration

The Office of Administration is the state's service and administrative control agency. Created by the general assembly on January 15, 1973, it combines and coordinates the central management functions of state government. Its responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the Commissioner of Administration, who is appointed by the Governor with the advice and consent of the Senate. The Commissioner appoints the Deputy Commissioner / Chief Counsel, Assistant Commissioner and the directors of the divisions who report directly to him. The divisions are Accounting; Budget and Planning; Facilities Management, Design and Construction; General Services; Information Technology Services; and Purchasing. The Director of the Division of Personnel is appointed by the Governor and reports to the Commissioner of Administration.

The Office of Equal Opportunity, governed by Executive Order 10-24, assists and monitors state agencies in promoting and ensuring equal opportunity within state government through employment, provision of services, and operation of facilities.

The Alternatives to Abortion Program was established in 2007 through Section 188.325, RSMo. The program is designed to assist low-income pregnant women in carrying their unborn child to term instead of having an abortion, and to assist them in caring for their child or placing their child for adoption. The program provides services and counseling during pregnancy and for one year following birth. The program is currently administered through the Commissioner's Office, which manages eight contracts with community-based, non-profit organizations to provide these services to eligible women and their children.

Division of Accounting

The Division of Accounting (DoA) provides central accounting and central payroll system services for state government, producing checks and electronic payments for state vendors and state employees. The DoA publishes annual statewide financial reports, administers bond sales for the Board of Fund Commissioners, Board of Public Buildings, and Board of Unemployment Fund Financing, and administers the social security coverage for all employees of the state and its political subdivisions.

Division of Budget and Planning

The Division of Budget and Planning (DBP) analyzes state government programs and provides recommendations and information to the Commissioner of Administration, Governor, general assembly, and state agencies regarding fiscal and other policies. The DBP prepares the budget instructions, reviews agency budget requests, prepares the annual executive budget, analyzes economic and demographic conditions, forecasts state revenues, and conducts technical policy and program analyses. To assist in state government management, the DBP controls appropriation allotments, manages the automated state budget system, prepares legislative fiscal notes, reviews legislation, tracks agency performance measures, analyzes and develops policy options, and reviews federal issues and their impact on Missouri. The DBP prepares population estimates and projections, required by state and local agencies, and serves as Missouri's liaison to the United States Bureau of the Census.

Division of Facilities Management, Design and Construction

The mission is to provide a superior workplace environment for state occupants and their visitors and protect the State's investments in property assets. The goal of FMDC is to provide agencies with the information and resources that will support their development of high-performance workplaces - workplaces that will meet agencies' business needs and can be readily adapted to changing work place practices and strategies.

Division of General Services

The Division of General Services provides essential support services to state departments and to the Office of Administration. State Printing provides comprehensive reproduction services including design, printing, finishing, and quick copy services. Risk Management administers the Legal Expense Fund and the workers' compensation program for state employees, purchases insurance as required, and advises state agencies on risk management issues. Vehicle Maintenance operates a centralized maintenance facility to provide mechanical repairs and body shop services for state vehicles based in the Mid-Missouri area. Fleet Management establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system; operates a consolidated car pool serving agencies in the Jefferson City area; and serves as a resource for fleet management issues. Surplus Property is responsible for the transfer and disposal of state surplus property and for the distribution of excess federal property to eligible entities. State Recycling coordinates and serves as a resource for recycling efforts. Led by the Chief Information Officer (CIO), the division sets a foundation for a unified IT office that delivers superior quality at reduced cost.

Division of Personnel

The Division of Personnel (DoP) is responsible for administering the State's Merit System, overseeing the Uniform Classification and Pay System, and developing and administering a management training program, as established in the State Personnel Law (Chapter 36, RSMo). Division staff provide consultation on a variety of human resources topics. The Missouri Merit System is based on the principles of merit and fitness as determined by competitive evaluation criteria for employment. The Uniform Classification and Pay (UCP) system is designed to promote equity in position classification among state employees in most executive branch agencies and to provide coordinated compensation policies.

Division of Purchasing
The Division of Purchasing (Purchasing) is responsible for the procurement of all state-required supplies, materials, equipment, and professional or general services, except for those agencies exempted by law. Purchasing executes procurement functions in accordance with applicable statutes by maximizing competition in the procurement process, conducting evaluations and negotiations as appropriate, and awarding contracts to the "lowest and best" bidders.

MISSOURI DEPARTMENT OF AGRICULTURE

DEPARTMENTAL PLAN NOVEMBER 2015

MISSION

The mission of the Missouri Department of Agriculture is to serve, promote and protect the agricultural producers, processors and consumers of Missouri's food, fuel and fiber products.

INTERNAL ORGANIZATION

The Missouri Department of Agriculture represents the diverse interests of the state's vast agricultural industry. The department has the dual responsibility of protecting the state's producers, processors, distributors and consumers of food, fuel and fiber, while marketing Missouri's food and agricultural products at home and abroad. The Department was originally established by Senate Bill 42, passed in 1933. Its current constitutional authority is Article IV, Section 35, and its statutory authority is RSMo. Chapter 261.

OFFICE OF DIRECTOR

The Missouri Department of Agriculture is managed by a Director who is appointed by the Governor and confirmed by the Senate. The Director determines department policy, oversees the department's five divisions and serves as a liaison to the Governor, state legislators, the agriculture community and the public.

The Director is a standing member of the State Milk Board, the Missouri State Fair Commission, the Missouri Soil and Water Districts Commission, the Missouri Development Finance Board, the Missouri Petroleum Storage Tank Insurance Fund and the Missouri Agricultural and Small Business Development Authority.

The Deputy Director is responsible for coordination of activities of the division directors and manages the day-to-day operations of the Department. The Deputy Director acts on behalf of the Director in his/her absence.

Housed within the Office of the Director are the department's administrative and support functions: fiscal, grants management, human resources, strategic initiatives and communications, budget, general counsel, legislative and policy and planning.

AGRICULTURE BUSINESS DEVELOPMENT DIVISION

The Agriculture Business Development Division creates opportunities for success for Missouri's farmers and agribusinesses. Division staff help facilitate growth in Missouri's agriculture-based businesses by providing business counseling, information and training on a sector-by-sector basis.

Areas of specialization include capitalization, business planning, marketing, industry development, product and brand development and organizational structures. The division also helps facilitate growth in Missouri's agriculture-based industries by working with key players such as universities, associations, private sector partners and federal and state agencies.

AgriMissouri

AgriMissouri is a branded program designed to grow the production of and demand for agricultural products grown and made in Missouri. The program works with farmers, agribusinesses and retail outlets statewide to increase consumer recognition of Missouri's agricultural products in the marketplace.

International and Business Development Programs

The International and Business Development Programs focuses on both domestic and international marketing. Department specialists work with specific industry representatives or groups to establish marketing opportunities and promote Missouri commodities here and abroad. Through providing one-on-one assistance to producers interested in marketing, production and processing their commodities in new ways, the marketing personnel enhance farm profitability in Missouri through innovations in technology and marketing and promotions of value-added agriculture. With an international office in Taiwan, international marketing specialists are able to work worldwide to promote and sell Missouri agriculture products.

The division's staff also works with Missouri youth, encouraging them to pursue agricultural degrees and careers through the Missouri AgriBusiness Academy, the Missouri Livestock Grading and Judging Contest, Building Our American Communities grants and working with state FFA and 4-H Chapters.

Farmers' Markets/Specialty Crops

Consumers demand high quality and fresh products at more than 270 farmers' markets as well as traditional retail outlets. To increase awareness for Missouri markets, this program works one-on-one with farmers' markets to ensure safe and abundant fresh products. Farmers marketing fresh products require knowledge of food safety, manufacturing, distribution and general market and business regulations. This program assists both markets and growers in efforts to increase the production, consumption and sales of specialty crops.

Market News

Market News provides an unbiased, reliable, accurate and timely source for livestock and grain market news to remain competitive and assist them in making wise and profitable marketing decisions. It also guides producers in production planning and

Page 2 of 11

provides a more even playing field in the marketplace. Market News staff report prices from 25 livestock auctions and 28 grain markets in Missouri. Daily market figures are published online and through the Weekly Market Summary.

ANIMAL HEALTH DIVISION

The Division of Animal Health, under the direction of the state veterinarian, promotes and protects Missouri's diverse and dynamic livestock industry. The assistance and oversight provided by the division's programs ensure greater market access for Missouri's livestock and companion animal industries.

Animal agriculture accounts for about half of Missouri's annual agriculture cash receipts. The division administers laws and programs designed to control and eradicate livestock disease and to maintain and enhance the integrity of the state's animal industries.

The state's progress in national disease control and eradication is due to the cooperative efforts of livestock producers, markets, practicing veterinarians, other agencies and animal health staff. Through these cooperative efforts, Missouri has achieved bovine Tuberculosis and Brucellosis Free status, swine Pseudorabies stage V status and avian Pullorum-Typhoid Clean status. In addition, the Division operates two state-of-the-art diagnostic laboratories in Jefferson City and Springfield.

AgriSecurity

The Animal Health Division works to safeguard the livestock industry and the public against the threat of bioterrorist attacks. In addition, the division informs cattle producers of quality assurance targeting breeding and cow herd management, increases awareness and understanding of environmental issues affecting production agriculture, presents marketing and food safety programs to small poultry producers and inspects Missouri meat processors to supplement existing USDA inspections.

Animal Care Facilities

Missouri is one of very few states which regulate companion animals. The Animal Care Facilities Act Program (ACFA) became law on August 28, 1992 to ensure dogs and cats, specifically those under the care of breeders, dealers, animal shelters, rescue operations and municipal pounds, receive adequate health care, shelter and proper socialization. The ACFA law, designed to benefit both the animals and the pet industry, requires any animal shelter, pound or dog pound, boarding kennel, commercial kennel, contract kennel, pet shop, exhibition facility, dealer or commercial breeder to be licensed and inspected annually.

Branding Cattle

Branding is one of the oldest and best ways to permanently identify livestock. It serves as an excellent safeguard against livestock theft, loss or dispute. Legislation passed in 1971 made the Missouri Department of Agriculture responsible for registering livestock brands. Brands must be recorded as required by Missouri's Marks and Brands of Animals Law to prove ownership and be considered legal evidence in a court of law.

Page 3 of 11

Disease Control

The health of Missouri's livestock is enviable among states. Our stringent animal health regulations and rigorous disease testing help keep Missouri free from costly and threatening livestock diseases. The Animal Health Division, under the direction of the state veterinarian, is responsible for controlling, eradicating and testing for livestock disease in Missouri. This is accomplished through testing, vaccinations and regulatory programs involving cattle, swine, horses, poultry, exotic animals, sheep, goats and small animals as provided under the Diseased Animal Law.

Dr. Merrill Townley Large Animal Veterinary Student Loan Program

The Dr. Merrill Townley Large Animal Veterinary Student Loan Program was established to assist students currently enrolled or students that have been accepted into the University of Missouri's College of Veterinary Medicine with their financial burden. Applicants are selected by an appointed advisory committee on an annual basis.

Food Safety

Ensuring the safety of Missouri's agricultural products, from grains to milk to fresh produce to meat, is a top priority. Each of the department's five divisions works to ensure that consumers continue to enjoy a safe, wholesome and affordable food supply, as a healthy food system begins on the farm and ends with healthy communities. The Animal Health Division focuses on the safety of our food, working to raise awareness and strengthen food safety efforts among producers, processors and consumers.

Large Carnivore Program

The Large Carnivore Program oversees the responsible ownership and care of large carnivores in Missouri. Through this program, the department regulates private ownership of species including tigers, lions, jaguars, leopards, snow leopards, clouded leopards and cheetahs and any hybrids of those, and ensures that owners meet state standards regarding housing, veterinary care, safety, identification and recordkeeping for those animals.

Livestock Markets and Dealers

Missouri has a livestock inventory of millions of cattle, hogs and pigs, sheep and equine. To help livestock producers obtain the maximum return on their investment, Missouri is fortunate to have a number of livestock market/sales throughout the state. To operate a livestock market/sale in the state, the operator must have a license issued by the Division of Animal Health. Missouri Livestock Dealer Registration is required for those who buy, sell or exchange livestock.

Missouri Meat and Poultry Inspection Program

The Missouri Meat and Poultry Inspection Program is dedicated to ensuring that the commercial supply of meat and poultry products within the state are safe, wholesome, accurately labeled and secure, as required by the State/Federal meat and poultry inspection laws. In cooperation with USDA-FSIS, the Missouri Meat and Poultry Inspection Program (MMPIP) offers equal inspection authority and service within the state of Missouri. As a result, any meat processed under MMPIP inspection and sold Page 4 of 11

within the state of Missouri is offered the same privileges and exemptions as USDA inspected meat products.

GRAIN INSPECTION AND WAREHOUSING DIVISION

The Grain Inspection and Warehousing Division is comprised of programs that administer the Missouri Grain Warehouse Law, the Missouri Grain Dealer Law and the United States Grain Standards Act. These laws promote and protect commerce in the interest of grain producers, merchandisers, warehousemen, processors and consumers. They also promote a uniform official inspection system for the orderly marketing of grain. This division also administers the Commodity Services Program.

Commodity Services Program

The Commodity Services Program provides commodity councils with an organized procedure for collection and distribution of commodity checkoff funds for nine Missouri commodities (Beef, Corn, Soybeans, Rice, Sheep & Wool, Wine, Aquaculture, Peaches and Apples). The program is also responsible for conducting seven annual merchandising council elections and administers the Missouri Hay Directory, an online hay listing service.

Grain Inspection Services Program

The Grain Inspection Services Program is designated to officially inspect, grade and weigh all grains that have standards established under the United States Grain Standards. The program provides four primary services:

- (1) official sampling to take a representative sample of grain from a particular lot
- (2) official inspection to determine and certify the type, class, quality or condition of grain
- (3) weighing certification to supervise the loading, unloading and weighing of containers of grain
- (4) chemical analysis to determine the protein or oil content of grain and to determine the existence of mycotoxins in grain.

Services are provided at inspection offices in Marshall, New Madrid and St. Joseph.

Grain Regulatory Services Program

The Grain Regulatory Services Program protects the public interest by auditing grain warehouses and grain dealers to determine grain obligations and financial solvency. The program enforces Missouri's Grain Warchouse and Grain Dealer laws so producers are aware that they are storing or merchandising their grain with licensed, bonded, reputable and financially stable grain businesses. The program annually licenses approximately 200 warehouses and 400 grain dealers and conducts more than 900 audits and investigations. The Missouri agricultural mediation service assists agricultural producers, their creditors and other persons directly affected by the action of the U.S. Department of Agriculture (USDA), with resolving disputes, thereby reducing participants' costs associated with administrative appeals and expensive, lengthy litigations. Mediation services are available to all participants of USDA programs

Page 5 of 11

including non-USDA situations that would have an adverse financial effect on the participant.

PLANT INDUSTRIES DIVISION

The Plant Industries Division is comprised of four Bureaus, which together administer state and federal laws. These laws facilitate agricultural production and marketing and provide consumer and environmental protection for Missouri citizens by regulating animal feeds and seeds, providing necessary certifications for interstate and international shipment of agricultural and forest products, ensuring plant pest protection for crops and forests, establishing grades and standards for fresh fruits and vegetables and regulating the use of pesticides.

Bureau of Fced, Seed & Treated Timber

The Bureau of Feed, Seed &Treated Timber administers the Missouri
Commercial Feed Law, Missouri Seed Law and Missouri Treated Timber Law. The feed
law regulates the manufacturing, distribution and labeling of commercial feed products to
ensure that livestock producers and pet owners receive a guaranteed feed product. The
Bureau, in partnership with the U.S. Food and Drug Administration, provides inspection
reports and regulation involved with preventing Bovine Spongiform Encephalopathy
(BSE), provides labeling assistance and investigates complaints related to animal feed.

The Bureau regulates seed products through inspecting, sampling, testing and labeling. Products are reviewed to ensure the product meets the labeled guarantees. The Bureau cooperates with the U.S. Department of Agriculture's (USDA) seed regulatory and testing branch in regulating the interstate movement of seed.

The Treated Timber Bureau is responsible for licensure of all treated timber producers conducting business within Missouri. The program is also responsible for the regulations governing the quality and distribution of treated wood products.

Bureau of Pesticide Control

The Bureau of Pesticide Control administers laws for registration, distribution and use of pesticides. All pesticides sold and used in Missouri are regulated by the Missouri Pesticide Registration Act. Bureau personnel inspect pesticides for proper labeling and registration and investigate misuse. The Missouri Pesticide Use Act allows the Bureau to certify commercial, noncommercial and private applicators and public operators. The act also provides for licensing pesticide dealers and pesticide technicians.

Bureau of Plant Pest Control

The Bureau of Plant Pest Control administers laws to control insects, plant pests and plant diseases. It also administers the Missouri Plant Law, which mandates controlling harmful insects, plant pests and plant diseases through surveys, quarantines, nursery and greenhouse inspections and certification. The law also enables interstate and international shipments of Missouri plants and plant products.

Page 6 of 11

As a service to Missouri beekeepers, the Bureau works under the Missouri Apiculture Law to inspect and certify honey-bee colonies. These procedures are required for interstate shipment of honey-bees.

Bureau of Integrated Pest Management

The Integrated Pest Management (IPM) Bureau includes Noxious Weed, Fresh Fruit and Vegetable Inspection and the IPM in Missouri Schools programs.

IPM strategies anticipate pest problems and prevent them from reaching economically damaging levels. The goal of the IPM Program is to assist producers with reducing dependence on pesticides through pest identification and surveys, adoption of improved cultural management practices, strategic control methods and, when practical, the use of biological control agents. The Bureau provides oversight of grant funded programs including the IPM in Missouri Schools, Pesticide-Sensitive Crops Registry and U.S. Forest Service pest surveys.

The program administers the statutes involving the control and/or eradication of noxious weeds as well as the appointment of Johnson Grass Control Board members in their respective counties.

The Fresh Fruit and Vegetable Inspection Program ensures buyers and sellers of this highly perishable product that commodities are graded and packed to conform to established USDA standards. Shipping point inspections at the point of origin determine the quality and grade of Missouri grown produce. Terminal market inspections confirm quality and grade of produce received by Missouri wholesale purchasers for distribution to retail outlets. Both types of inspections are provided upon request and at the expense of growers, shippers, or wholesale purchasers. The program is a State/USDA Agricultural Marketing Service cooperative effort.

Laboratory Support

Laboratories are maintained for analytical support to the seed, treated timber and commercial feed programs as well as other programs in the division.

WEIGHTS, MEASURES & CONSUMER PROTECTION DIVISION

The Weights, Measures and Consumer Protection Division maintains surveillance of commercial weighing and measuring devices. The division promotes uniformity in laws, regulations and standards to achieve equity between buyers and sellers. Sales of products and services impacted by Weights and Measures laws represent over 50 percent of U.S. gross national product totaling over \$4.5 trillion.

The division's programs are operated in accordance with the National Institute of Standards and Technology. The division also is a member of the National Conference on Weights and Measures, ASTM International and the National Fire Protection Association.

Page 7 of 11

Device and Commodity Inspection Program

As required by Missouri statutes, device and commodity field personnel inspect large and small scales, grain hopper scales, taxicab meters, odometers, timing devices, fabric measuring devices, milk for quantity determination, country of origin labeling price verification, prepackaged merchandise and method of sale of commodities. The program enforces the Missouri Egg Law and the Missouri Unfair Milk Sales Practices

Petroleum/Propane/Anhydrous Ammonia Program

The program combines a variety of services. Under the program, petroleum dispensers, petroleum terminal meters and metered fuel delivery trucks are tested for accuracy. Service station pumps including compressed natural gas, liquid natural gas and electrical recharge meters, are also inspected for accuracy and safety. Storage and handling of anhydrous ammonia are monitored for safety.

Metrology/Grain Moisture Meter Program

The metrology program conducts tests, calibrates and certifies field standards for state agencies and private institutions. The state metrologist is the official keeper of Missouri's primary standards of mass, volume and length. Grain moisture measuring devices are inspected for accuracy.

Fuel Quality Program

Fuel samples are collected by field personnel and submitted for testing. The petroleum laboratory analyzes gasoline, kerosene, heating oils and diesel fuel to make certain they meet state quality and safety standards.

Land Survey Program

The Land Survey Program provides information and resources for the accurate location, restoration and preservation of all United States Public Land Survey Comers in Missouri. The program is responsible for the maintenance and preservation of the geodetic reference system in Missouri. The program also maintains a records storage and retrieval system for land survey records and geodetic survey data.

BOARDS AND COMMISSIONS

Missouri State Fair Commission

Established in 1899, the Missouri State Fair is one of the oldest fairs in the nation. The fairgrounds, which cover 396 acres in Sedalia (Pettis County), are open year round, providing facilities for horse and livestock shows, art and craft festivals, camping, rallies and other events. During the annual fair held each August, visitors enjoy educational and recreational activities, a carnival midway and musical entertainment.

The Missouri State Fair continues to be the state's largest agricultural and tourism event with exhibits showcasing livestock, row crops, horticulture and floriculture. The State Fair plays an important role in shaping Missouri agriculture, contributing to the state's economy and educating the public about the importance and necessity of

Missouri Wine & Grape Board

The Missouri Wine and Grape Board is responsible for researching, developing and promoting Missouri grapes, juices and wine. The Board is funded by a tax on all wine sold in Missouri.

Missouri wineries continue to refine their grape growing and winemaking skills to offer distinctive, quality wines. The Wine and Grape Board sponsors research and advisory programs at the Grape and Wine Institute.

Missouri wineries produce wine with over a billion dollars in economic impact. Many of the state's wineries consistently take top honors in prestigious domestic and international competitions.

The Board is administered by an eleven member commission which is appointed by the Governor and confirmed by the Senate.

State Milk Board

The State Milk Board administers milk inspection relation to Grade A milk and milk supplies to assure uniformity of procedures and interpretation of milk inspection regulations. The Grade A or fluid milk activities of the state are supported by revenue from inspection fees.

The manufacturing grade dairy program enforces sanitation and quality standards for manufactured dairy products and provides market testing of all milk at the first point of sale. Milk procurers, manufacturing plants, field superintendents, testers, graders, samplers, bulk milk truck operators and market testing laboratories are licensed by the State Milk Board.

Missouri Agricultural and Small Business Development Authority

DEPARTMENT OF CONSERVATION

ORGANIZATION PLAN

The head of the Department of Conservation is a four (4)-member commission appointed by the governor with the advice and consent of the senate. The commission is charged with the control, management, restoration, conservation and regulation of the bird, fish, game, forestry and all wildlife resources of the state.

The commission appoints a director who serves as the administrative officer of the Department of Conservation. The director appoints other employees. Three (3) deputy directors, general counsel and internal auditor are responsible to the director and facilitate administration of the department. Programs and activities are carried out by the divisions of administrative services, design and development, fisheries, forestry, human resources, outreach and education, private land services, protection, resource science and wildlife. Policy Coordination Unit serves the director's office, divisions and regions by coordinating policy, strategic planning, environmental and cultural resource reviews, public involvement and surveys, and river basin management. Information Technology Unit serves the director's office, divisions and regions by providing technology planning, systems research and design, customer technical support, and administers voice and data network operations.

The department carries out its programs through the following major divisions:

Administrative Services Division provides administrative support by way of 5 units: Financial Services, Permit Services, Fleet Services, Flight Services, and General Services. The Division coordinates and administers all budget, revenue, and finance functions; distributes and manages hunting, fishing, commercial and landowner permits; manages the equipment fleet and aviation services; maintains the publications distribution center; and oversees the products and media loan service.

Design and Development Division provides engineering, architectural and construction services that enhance the Department's resource management efforts. The Division's primary functions are to help maintain the Department's diverse portfolio of infrastructure assets and manage the capital improvements program. Typical projects include wetlands, hatcheries, reservoirs, nature centers, buildings, river and take accesses, stream improvements, shooting ranges and engineering studies. Related services include building and ground maintenance, surveying, construction management and environmental and cultural compliance permitting for construction projects and area development projects.

Fisheries Division manages 4 warm-water fish hatcheries (for rearing the fish needed to stock public waters and waters used for special fishing events and aquatic resource education) and 5 cold-water fish hatcheries (for rearing trout needed to stock public waters and trout parks); administers the Stream Team program; provides fisheries management of public impoundments, rivers and streams; offers technical guidance in stream and lake management to private landowners and other public agencies; oversees the acquisition and development of public fishing and boat access areas; administers community, agency, and partnership agreements; participates in recovery plans of threatened or endangered aquatic species; and educates and informs the public about aquatic resources through technical and popular written materials, electronic media, presentations to groups, workshops, interviews to journalists, and personal contacts.

Forestry Division ensures the health and sustainability of Missouri's urban and rural forest resources and addresses what people need from those resources. Forestry staff provide

technical advice and assistance in the following forestry areas: health, wildfire suppression, planting, inventory and analysis, improvement, marketing, and management of resources. Technical assistance is also provided on the care of trees in our cities and towns. The Forestry Division maintains the Department's seedling nursery.

Human Resources Division provides a full range of services that help the Department attract and retain a diversified, dynamic workforce. Staff assist with recruitment and selection activities; administer salary and benefit programs; oversee a comprehensive group life, medical, accidental death, and dismemberment and dependent life insurance program; maintain official employee documents and records; and manage a safety program (including workers' compensation); monitor the Department's compliance with employment practices relating to affirmative action, ADA and drug testing; provide employee training and development programs; administer employee assistance and wellness activities; and facilitate the disciplinary and grievance process.

Outreach and Education Division helps Missourians of all ages enjoy and understand the value of our plant and animal resources and how to keep them thriving for years to come. Outreach and Education staff provide hands-on connections with the outdoors through skills classes, educational units, nature center programs and special events. Outreach programs staff produce a variety of information tools, including the Department website, Missouri Conservationist magazine, Xplor magazine for kids, books, brochures, videos, DVDs, exhibits, news, nature shops and more. Conservation education staff provide hands-on, place-based units to educators through the Discover Nature Schools program. Nature center staff help Missourians learn more about forest, fish and wildlife resources and ways to put conservation into practice. Outdoor skills staff work through schools and Department shooting ranges to provide hunter education and shooting sports opportunities for all Missourians, school-based skills training, and programs and clinics for youth and adults who want to hunt and fish. Conservation education and outdoor skills staff strive to help all Missourians enjoy the outdoors through safe and ethical, nature-based recreation.

Private Land Services Division helps Missouri landowners achieve their land use objectives in ways that enhance the conservation of Missouri's natural resources. Private Land Services staff promote the sound management of forest, fish, wildlife and natural community resources through voluntary participation, information, financial assistance, and partnerships. This includes assistance to landowners to evaluate natural resource and wildlife damage conditions, and recommendations of management and improvement techniques. They establish partnerships with other state and federal agencies, commodity groups, agri-businesses, and conservation organizations to develop and achieve common natural resource goals. They strive to encourage a land management ethic among landowners, increase community involvement, build trust, and heighten understanding of the Department's mission.

Protection Division is responsible for enforcement of The Wildlife Code of Missouri and related statutes on both private and public lands as well as many other duties. Conservation agents are assigned to each county in Missouri, and represent the Department in a wide variety of programs. Agents administer the hunter education program in their local area. Agents provide conservation information and education through newspaper articles, adult and youth meetings, exhibits, clinics, and radio/television programs. Protection Division personnel provide basic information and materials for forest, fish and wildlife management to Missouri citizens, and are involved in administering Department landowner assistance programs. In addition, conservation agents routinely make contacts with landowners who have wildlife depredation or nuisance problems, poaching or trespass problems, and a host of other needs. Protection Division cooperates with the Conservation Federation of Missouri in administering Operation Game Thief, Operation Forest Arson, and Share the Harvest programs.

Resource Science Division ensures integration of population dynamics, habitat relationships, and constituent desires into science-based management and policy for grassland, agricultural, forest, wetland, and aquatic systems. An emphasis on biometrics, GIS/GPS technologies, and database management is required for sound study design, comprehensive analysis and confident reporting of research and monitoring results. Science services in the form of diagnostics, genetics research, and water quality investigations provide specialized assistance for resource professionals as well as the Missouri public. Assisting resource managers with evaluation of their fish, wildlife, and habitat management efforts also is a priority for the Resource Science Division. Special emphasis on species and communities of concern through surveys, monitoring and comprehensive databases is dedicated to protecting endangered species, wildlife diversity and natural community conservation. Training of resource managers through specialized workshops provides skills in taxonorny, field sampling methods, and technical applications. The Division also provides technical support for establishing harvest regulations, conservation planning, and public information through popular and professional publications.

Wildlife Division is responsible for actively managing habitats on public lands for Missouri citizens to enhance natural communities and improve habitats for plants and animals and Missouri citizens. Accomplishing this objective involves a wide range of programs and activities on public and private land. Administration of hunting programs on public lands and coordination with other agencies help ensure that wildlife and wildlife habitat receive full consideration in all land management activities. The Wildlife Division also provides a number of special services designed to aid people in many aspects of wildlife conservation. These include management advice to individuals and groups interested in wild animals, assistance to alleviate wildlife damage, personal appearances as speakers on wildlife topics, and preparation of publications, reports, regional plans and replies to inquiries.

General Counsel provides legal advice to the commission and administrative staff and provides legal counsel in matters of litigation; aids in formulating policy; advises in the formulation of regulations; and performs review of legal documents, agreements, and memorandums of understanding.

Deputy Counsel performs title and document review relating to the acquisition of real property; assists General Counsel as needed; and supervises the Realty Services staff.

Internal Auditor reviews operations and programs to assure that resources are used efficiently, and provides the commission and administration with information useful in directing and controlling department operations. Internal Auditor also serves as the Departments' Custodian of Records, and the Hearing Officer for privilege suspensions associated with wildlife code and various other violations.

November 6, 2015

Mr. Doug Nelson, Commissioner Office of Administration State Capitol - Room 125 Jefferson City, MO 65101

Dear Commissioner Nelson:

In accordance with Section 1.6 (2) of the State Omnibus Reorganization Act of 1974, I respectfully submit for your approval the attached revised departmental plan for the Department of Corrections.

Since the last departmental plan was submitted in 2012, the Department of Corrections has implemented the following organizational changes.

- Beginning on September 1, 2015, the facility which housed the Kansas City
 Community Release Center and the Kansas City Community Supervision
 Center, formerly under the operational control of the Division of Probation and
 Parole, was formally transferred to the Division of Adult Institutions to operate as
 a 410-bed innimum security prison/reentry center and was renamed the Kansas
 City Reentry Center. This change was implemented in order to provide more
 prison bed space and to more effectively manage offenders supervised by the
 Department.
- In the Division of Human Services, the Offender Finance Section has been split out from the Fiscal Management Unit and set up as its own section.
- In the department organization chart, the functions of administration and community corrections in the Division of Probation and Parole have been consolidated under the position of the Assistant Director of Administration and Community Corrections. These duties were previously listed directly under the Chief State Supervisor

I am submitting the Department's organizational chart depicting the changes along with the salary schedule for the administrators of the Department. Please advise if you have any questions regarding any of this information.

Departmental Overview

The Department of Corrections is an agency dedicated to public safety through the successful management and supervision of offenders on probation, in prison and on parole. The Department's responsibility is to administer the sentence set by the court in ways that promote public safety at the lowest cost. Offenders assigned to the Department are successfully managed by ensuring they are supervised at correct custody or supervision level. A cadre of over eleven thousand well-trained correctional professionals committed to the vision, mission, values and professional principles of the Department assess each offender's criminal history, evaluate community and institutional conduct and enforce court orders and department rules. This mixture of on-going assessment, classification, referral to supervision strategies and assignment to basic habilitation interventions are several of the key methods used to promote sober, responsible, productive and law-abiding behavior. When offenders are held accountable for their actions, the public's safety is enhanced.

In all, the Department is responsible for the care, custody and supervision of approximately 93,200 adult offenders in Missouri. There are currently more than 32,700 adult felons confined in Missouri's 21 correctional facilities and one community release center. The Department also supervises 15,900 parolees and 44,600 probationers across the state.

Organizational Plan

The Department of Corrections is comprised of four divisions: the Division of Human Services, the Division of Adult Institutions, the Division of Probation and Parole and the Division of Offender Rehabilitative Services.

The Division has the overall responsibility of administering the correctional centers and managing incarcerated offenders in a secure, safe and humane manner. All newly committed offenders undergo a full classification analysis at one of the Division's reception and diagnostic centers to determine appropriate custody level and basic treatment needs. In addition, offender reclassification occurs throughout each offender's period of incarceration to ensure that offenders are housed at an appropriate custody level institution. The Division also works to prepare offenders for successful reintegration back to the community through effective case management and providing reentry programming to improve offender cognitive and life skills. The Division establishes work release programs for cligible offenders and provides opportunity for offender visitation with family and friends at each prison.

Substance Abuse Services supervise the substance abuse treatment activities at ten prison facilities which have programs that vary in length from thirty days to twelve months. Missouri Vocational Enterprises (MVE) produces products and services for state agencies, state employees, other governmental jurisdictions, and not-for-profit organizations, helping inmate workers develop marketable skills.

Mr. Douglas E. Nelson Commissioner Office of Administration State Capitol Building, Room 124 Jefferson City, MO 65101

Dear Commissioner Nelson:

The Department of Elementary and Secondary Education's organizational structure has remained the same for over 5 years and still reflects the two primary functions (divisions) of our agency—Learning Services and Financial and Administrative Services.

Within the Division of Learning Services over the past year, we eliminated the formal "Office" of Early and Extended Learning and the assistant commissioner position for that office. However, all other staffing as well as the program functions of early childhood education and extended learning (before- and after-school programs) remain intact and are, now, part of the Office of Quality Schools. There are no changes in our basic services and programming at any level. We believe this structure allows us to better coordinate within and among our offices that comprise the Division of Learning Services.

Please note that there are no changes to our agency's salary schedule amounts.

If you have any questions, please do not hesitate to contact our office.

Sincerely,

Margu Vandeven

Dear Mr. Nelson:

In compliance with the Omnibus State Reorganization Act of 1974, Section 1.6(2), I submit the Missouri Department of Revenue's reorganization plan for Governor Nixon's approval.

The Missouri Department of Revenue serves as the central collection agency for all state and non-state revenues. In addition to collecting taxes, the Department titles and registers vehicles, and license drivers.

The Department of Revenue has moved some of the tax credit functions transferred to the Department through Executive Order 13-02 from the Administration Division to the Taxation Division. In addition, the Department reassigned the internal audit section previously assigned to the Legal Services Division to report to the Director's Office within the Administration Division. These transfers did not significantly change our existing organization structure.

The narrative description has been updated to include these changes.

If you have any questions or need additional information, please contact me at 751-5671.

Department of Mental Health

The Department of Mental Health was officially established on July 1, 1974 as a cabinet-level state agency by the Omnibus State Government Reorganization Act; however, its functions date back to 1847. The Department serves as the state's Mental Health Authority, establishing philosophy, policy, and standards of care.

State law provides three principal missions for the Department: (1) the prevention of mental disorders, developmental disabilities, substance use disorders, and compulsive gambling; (2) the treatment, habilitation, and rehabilitation of Missourians who have those conditions; and (3) the improvement of public understanding and attitudes about mental disorders, developmental disabilities, substance use disorders, and compulsive gambling.

The vision for the Missouri Department of Mental Health is "Hope, Opportunity, Community-Inclusion: Missourians receiving mental health services will have the opportunity to pursue their dreams and live their lives as valued members of their communities." Missourians must know that mental illness is treatable, that persons with substance use disorders can triumph over their addictions, and that persons with developmental disabilities can be productive citizens and good neighbors in their communities.

Mental Health Commission

The Commission, composed of seven members, appoints the Director of the Department of Mental Health with confirmation of the Senate. Commissioners are appointed to terms by the Governor, again with the confirmation of the Senate. Commissioners serve as policy advisers to the Department Director. The Commission, by law, must include an advocate of community mental health centers, a physician who is an expert in the treatment of mental illness, a physician or psychologist concerned with developmental disabilities, a member with business expertise, an advocate of substance use disorder treatment, a citizen who represents the interests of consumers of psychiatric services and a citizen who represents the interests of consumers of developmental disabilities services.

Office of the Director

The seven-member Missouri Mental Health Commission serves as the principal policy advisory body to the Department Director. The Director's duties include planning, supervising and evaluating the provision of services for Missourians with mental illness, developmental disabilities and substance use disorders. The Department of Mental Health (DMH) is comprised of two program divisions, the Division of Behavioral Health and the Division of Developmental Disabilities, and the Division of Administration, the Office of Comprehensive Child Mental Health, the Office of General Counsel, and several support offices. DMH serves approximately 170,000 Missourians annually through state-operated facilities and contracts with private organizations and individuals. The state-operated psychiatric facilities include inpatient psychiatric care for adults and children, and services provided for court appointed offenders to the Sexual Offender Rehabilitation Treatment Services unit. In addition, habilitation centers and regional centers serve individuals with developmental disabilities. Other services are purchased from a variety of privately operated programs statewide through approximately 1,300 contracts managed annually by DMH.

Deputy Director

The Office of the Deputy Director provides the leadership and direction for a variety of departmentwide and statewide functions that support program operations and services to DMH consumers. These include supervisory responsibility for the department's Office of Deaf Services, Office of Constituent Services, and the Investigations Unit. The Deputy Director also leads special projects at the Department Director's discretion.

Division of Administrative Services

The Division of Administrative Services oversees the Department of Mental Health budget. In addition, the Division of Administrative Services coordinates more than \$298 million in reimbursements from Medicaid, Medicare, disproportionate share hospitals (DSH) and other third parties. The Division is responsible for processing accounts payable for Central Office, Financial Management, Reporting and Control, Budget Development and Budget Control, Central Office General Services, Fleet Management, Procurement and Contract Management, Revenue Maximization, MO HealthNet, Medicare, and other revenue billings and collections.

Division of Behavioral Health

The Division of Behavioral Health (DBH) provides comprehensive mental health and substance use disorder prevention, treatment, and recovery services in Missouri. The Division is responsible for the operation of six adult psychiatric facilities, one children's facility, one opioid treatment clinic and the oversight of a statewide network of contracted community providers. Approximately 338,000 people receive behavioral health services from programs operated by or contracted with the Division. The Division oversees seven state-operated hospitals for people with serious mental illness and children with severe emotional disturbances. All hospitals are fully accredited by The Joint Commission (TJC) and are Medicare-certified. The hospitals include Fulton State Hospital; St. Louis Psychiatric Rehabilitation Center; Metropolitan St. Louis Psychiatric Center; Hawthorn Children's Psychiatric Rehabilitation Center, St. Joseph; and Southeast Missouri Mental Health Center, Farmington.

The Sex Offender Rehabilitation and Treatment Services program operates in secure facilities in both Farmington and Fulton. Forensic services are provided for the evaluation, treatment, and community monitoring of individuals with mental illness and developmental disabilities who are involved in the criminal justice system under the order and direction of circuit courts. The Division supervises approximately 465 forensic clients on conditional release statewide and conducts an average of 440 pretral evaluations each year,

Community-based treatment is provided through contracted, certified agencies that serve children, youth, and adults. Administrative Agents are designated by state law as entry points into the mental health system for people with serious mental illness. Services provided by these Administrative Agents and Affiliate contractors include the Community Psychiatric Rehabilitation Program (CPRP) for adults with serious mental illness and youth with serious emotional disturbances. Comprehensive Substance Treatment and Rehabilitation (CSTAR) Programs, operated by Community Mental Health Centers and other substance use treatment providers, provide general adult treatment as well as specialized services for pregnant and postpartum women, women with children, adolescents, and individuals who are addicted to heroin or prescription opiates.

Other statewide programs include the Disease Management 3700 and ADA Disease Management projects, the Health Home initiative, and the Substance Abuse Traffic Offender Program (SATOP). The Mental Health 4 (MH4) and Community Mental Health Treatment (CMHT) Program partners with the Department of Corrections to assist individuals with serious mental illnesses transition from correctional institutions into their communities and provides behavioral health services for individuals in the community supervised by Probation and Parole.

There are varieties of criminal justice specific, substance use outpatient treatment programs offered via contracted providers. Outpatient treatment for compulsive gamblers and their families is provided by contracted agencies that employ specially trained counselors. Specialized services for children and youth with severe emotional disturbances are provided in a variety of settings, including schools, state-operated facilities, and community-based programs. Recovery services support individuals in recovery from serious mental illness or severe substance use disorders. They include employment programs and affordable housing options, as well as Consumer Operated Service Programs (COSPs), and other evidence-based peer services. Substance use disorder prevention and mental health promotion are offered through community- and schoolbased providers that target individuals, families, and communities. Evidence-based programs and practices are provided through a network of community coalitions, a statewide training resource center, regional support centers, direct services for high risk-youth, college-based services, and school-based prevention. Statewide initiatives include suicide prevention, Crisis Intervention Team (CIT) training for law enforcement, tobacco cessation, and Mental Health First Aid.

Division of Developmental Disabilities

The Division of Developmental Disabilities (DD), established in 1974, serves persons with disabilities such as intellectual and developmental disabilities, cerebral palsy, head injuries, autism, epilepsy, and certain learning disabilities. Such conditions must have occurred before age 22 with the expectation that they will continue. To be eligible for services from the Division, persons with these disabilities must have substantial functional limitations in two or more of the following six areas of major life activities: self-care, receptive and expressive language development and use, learning, self-direction, capacity for independent living or economic self-sufficiency, and mobility. The Division's focus is on improving the lives of persons with developmental disabilities and their families through programs, supports, and services to enable persons with developmental disabilities to live independently and productively.

In 1988, the Division began participation in the Medicaid home and community-based waiver program designed to help expand needed services throughout the state. Specialized services are either provided directly or purchased through contracts by entities operated by the division. The Division is responsible for the operation of 11 offices. The five regional offices and six satellite offices are primary points of entry into and exit from the system. Staff at these offices determine eligibility; provide or contract for support coordination; work with individuals and their families to identify services or supports which are needed; and develop and support the contract providers who deliver the majority of the services in an individual's plan.

As a part of the services for persons with disabilities, the Division operates five habilitation centers, Bellefontaine Habilitation Center, St. Louis; Higginsville Habilitation Center; Marshall Habilitation Center; St. Louis Developmental Disabilities Treatment Center; and Southeast Missouri Residential Services, Sikeston and Poplar Bluff. These facilities primarily provide residential care and habilitation services to persons who are medically and behaviorally challenged, or court committed. All habilitation centers are Tille XIX certified as Intermediate Care Facilities for the intellectually and developmentally disabled. In addition, the Division operates MO HealthNet Waiver Individualized Supported Living (ISL) and group homes to support persons served through Northwest Community Services, Marshall; Southwest Community Services, Nevada; and Southeast Missouri Community Services, Sikeston and Poplar Bluff.

Report of the Missouri Citizens' Commission on Compensation for Elected Officials

November 2002

Missouri Citizens' Commission on Compensation for Elected Officials

November 27, 2002

The Honorable Matt Blunt Secretary of State 600 West Main Jefferson City, Missouri 65102

Patricia L. Buxton Revisor of Statutes Committee on Legislative Research Room 117-A State Capitol Jefferson City, Missouri

Dear Secretary of State Blunt and Ms. Buxton:

Article XIII, Section 3 of the Missouri Constitution requires that the Missouri Citizen's Commission on Compensation for Elected Officials file a report before December 1. The Commission's report is attached and contains the schedule of compensation required.

Sincerely,

John J. Elseng John Ebeling Charman

EXECUTIVE SUMMARY OF RECOMMENDATIONS

- Statewide elected officials and General Assembly
 5.8 percent increase for both Fiscal Year 2004 and Fiscal Year 2005 using the pay plan model developed for the rest of state government employees by the state's Personnel Advisory Board and the Missouri Commission on Total Compensation.

 - 3.8 percent for a general structure adjustment.
 2.0 percent equivalent to one within grade step
- The Commission believes that statewide elected officiats and the General Assembly should be granted the same salary increases as other state employees receive. The Commission urges the Governor and General Assembly to provide a salary increase in Fiscal Year 2004 and Fiscal Year 2005 for state employees. In addition, the Commission urges the Governor and the General Assembly to provide funding to deal with increased health care costs so that state employees do not suffer net pay decreases in the future.
- The Commission's compensation schedule is not intended to be added on top of any other general, uniform increase given to other state employees. Nor does the Commission intend that any general, uniform increase be added on top of the compensation schedule.

S6,000 base increase each year for all levels of the judiciary.

Future of the Commission

- The members recommend that if the General Assembly does not fund in whole, or in part, the recommendations of the Commission that a constitutional amendment should be submitted to the voters in August 2004 to either:
 - Change the structure of the Commission so that the recommendations are binding upon the General Assembly and stand appropriated, or
 - b. Abolish the Commission.
- The recommendations of the Commission were ignored and criticized in 1996, 1998, and 2000. Members of the Commission recognize that this year's recommendations may receive the same fale. If that is the case then it is clear that the current constitutional provisions are not
- When government thes an activity that does not work it should be changed or eliminated. Continuation of the Commission and the reaction to its recommendations only serve to bring state government into disrepute with Missourians. It is unfair to our citizens and the members of the Commission who take time out of their lives to serve the state to continue this process as currently constituted.

The Commission held a total of four public hearings and a final meeting to complete its recommendations. The meetings helped the Commission understand its mandate and fulfill its mission to create a schedule of compensation in accordance with the state's constitution. The meetings included

October 3, 2002 - Kansas City - Organizational meeting and public hearing

During the organizational meeting the Commission discussed the outcome of its recommendations from two years ago. The Commission discussed the budget shortfalls the state has experienced. In addition, some preliminary discussion took place on the effect on salaries of health care cost increases faced by state employees over the same time period. The Commission also heard an update on the work on salaries and benefits by the state's Personnel Advisory Board and the Missouri Commission on Total Compensation appointed by Governor Holden. The Commission discussed the ground rules for presentation at the public hearings.

At the public hearing the Commission heard testimony from an Associate Circuit Court Judge about the work load carried by associate circuit court judges throughout the state. He explained how he is assigned cases outside of his county and how this happens throughout the state for judges in the system. Given the workload, the Commission asked about changing to a one tier that court system by converting associate circuit court judges to circuit court judges. The Commission heard testimony about the role of each level of the judiciary. It was noted that the gap between the various judicial levels had grown over the years due to percentage increases in salaries being adopted by the legislature. He brought to the Commission a plan to close the gap. Appellate judges would be paid 95%, circuit judges 90%, and associate circuit judges 90% less \$5,000 of Supreme Court judge salanes.

October 17, 2002 - Cape Girardeau - Public hearing

The Commission heard public testimony from several associate circuit court judges and a retired judge. The Commission heard testimony about the importance of having a well qualified judiciary. The Commission heard testimony about how the two tier trial court system was adopted. In areas of the state where judges have to run for election, the disparity between associate circuit judges who must run for election every four years was compared to circuit court judges who have to run every six years instead. The Commission heard testimony about the importance of the associate circuit court judges to the trial court system. Given the workload the Commission asked about changing to a one tier trial court system by converting associate circuit court judges to circuit court judges. In addition, the system of assigning judges both within and outside their home counties was explored at length. Testimony also highlighted the fact that circuit judges have court reporters compared to associate circuit court judges who receive only recording equipment. The Commission heard about how percentage pay increases have widened the pay differential between the various levels of the judiciary. According to testimony, the widening disparity in salaries creates significant animosity and frustration among the judges given the similarity in the associate circuit and circuit court workloads. The disparity in salaries then carries over to retirement benefits that are based on salaries thus furthering the frustration. A plan to close the gap was proposed. The plan would establish the Supreme Court salaries. Appellate judges would be paid \$5,000 less, circuit court judges \$10,000 less, and associate circuit court judges \$15,000 less than the Supreme

October 24, 2002 - Springfield - Public hearing

The Commission heard testimony from an associate circuit court judge. The Commission heard testimony about the importance of the associate circuit court judges to the trial court system. In addition, the system of assigning judges both within and outside their home counties was explored. The Commission heard about how percentage pay increases had widened the pay differential between the various levels of the judiciary. The current salaries do not reflect the proper value of the workload of the associate circuit court judges. The disparity in salaries then carries over to retirement benefits that are based on salaries thus furthering the frustration. Given the workload the possibility of changing to a one tier trial court system by converting associate circuit court judges to circuit court judges was discussed. A plan to close the salary gap was proposed. The plan would establish the Supreme Court salaries. Appellate judges would be paid \$5,000 less, circuit court judges \$10,000 less, and associate circuit court judges \$15,000 less than the Supreme

Court judges. The impact on salaries of the substantial increases in employee health care premiums was explained. Those cost increases have resulted in net pay reductions for judges and other state employees.

November 7, 2002 - St. Louis - Public hearing

The Commission heard public testimony from members of the public, a Supreme Court judge, an ex-Appeals Court judge, other state judges, and a state senator. A witness, who was a state employee, suggested that members of the legislature should not receive a pay increase because they have failed to adequately address the problems of the state in many areas – state employee salaries and the effect of large health care cost increases, workload increases, turnover, and the budget cuts on those less forfunate and on higher education.

The Commission heard testimony about the importance of having a well qualified judiciary. Testimony was presented that law school graduales are being hired by large law firms at starting salaries of between \$70,000 and \$90,000 per year. According to the Missouri Bar economic survey, the average net income of lawyers in Missouri is \$145,000 – or \$22,000 more than is paid to Supreme Court justices. It was pointed out that the Missouri bar discounts its rates for dues and continuing education credits to judges because of the substantial differential between public and private salaries. While judges expect that their public service will be rewarded at a lower salary, the difference is becoming too great a sacrifice. This results in economic factors forcing judges to leave the system. Of as great importance is the fact that highly qualified lawyers do not consider becoming judges because of the great disparity in pay between judicial and private sector salaries.

The Commission heard extensive testimony about the workload of the associate circuit court judges and the circuit court judges. The importance of the associate circuit court judges to the trial court system was highlighted. The possibility of changing to a one tier trial court system by converting associate circuit court judges to circuit court judges was discussed. In addition, the system of assigning judges both within and outside their home counties was explored at length.

The Commission heard about how percentage pay increases had widened the pay differential between the various levels of the judiciary. The widening disparity in salaries creates significant animosity and frustration among the judges according to testimony about the similarity in the associate circuit and circuit court workloads. The disparity in salaries then carries over to retirement benefits that are based on salaries thus furthering the frustration. A plan to close the gap was proposed. The plan would establish the Supreme Court salaries. Appellate judges would be paid \$5,000 less, circuit court judges \$10,000 less, and associate circuit court judges \$15,000 less than the Supreme Court judges. In addition, the Commission heard testimony that encouraged it to recommend salary increases to catch up for the two lost years where no pay plan was provided for judges.

Sen. Goode suggested that the Commission recommend no pay raise for elected officials, the judiciary, or the legislature because of the severe budget situation facing the state. In addition, he argued that there are always more than sufficient high quality candidates seeking judgeships when they become available. He also questioned whether the workload of rural county associate circuit court judges justified higher salaries. Several judges testified that because of the growing complexity of cases, the increasing workload, and the system of assigning judges outside their jurisdictions that the workload justified higher salaries.

November 15, 2000 – Jefferson City – Final compensation schedule established

The Commission met to finalize the compensation schedule that would be delivered in accordance with Article XIII Section 3 of the Missouri Constitution.

Compensation Schedule

Per Diem Expense Allowances:

Legislation was passed several years ago that provides that the General Assembly receive a rate not to exceed 80 percent of the federal per diem for Jefferson City. That rate is adjusted annually. The Commission believes that this rate is appropriate. The Commission's compensation schedule provides that the rate continue to be set at 80 percent of the federal per diem for Jefferson City.

The Commission did not receive any testimony about the per diem mandated by Section 476.380 RSMo for attendance at the annual Judicial Conference. During the 1999 legislative session a bill was passed that requires the state to pay a judge's actual and necessary expenses. Barring any testimony, the Commission's compensation schedule maintains the current practice.

Mileage Allowances:

The state mileage allowance is set at three cents less than the federal rate. Currently, the state rate is 33.5 cents per mile and is adjusted annually. The Commission's compensation schedule maintains the three cent differential.

Salary Rates:

The Commission must establish a schedule of salaries for the statewide elected officials, the General Assembly, and various levels of the Judiciary - from an Associate Circuit Court Judge to a Supreme Court Judge. In doing so, we are mindful of the fact that the adjustments to any of the salaries covered by the Commission have a cost to Missouri taxpayers. However, the full cost of the salaries paid to the positions covered by the Commission is very small in terms of the state budget – just six-tenths of one percent of the general revenue budget in Fiscal Year 2003. The Commission also acknowledges that the individuals holding these positions are given the responsibility to lead our state government and make decisions affecting all Missourians. These positions lead our state in providing for education, public safety, health care, and many other critical functions for Missourians. The Commission also believes that appropriate salaries are necessary to recruit a diverse, cross section of Missouri's citizens to fill these challenging jobs. Accordingly, in setting a schedule of salaries for these positions for Fiscal Years 2004 and 2005 the Commission has striven to achieve a middle ground that is evenhanded in its treatment of individuals holding these positions while best serving the requirements of and maximizing the benefits to the Missouri citizenry.

General Salary Adjustment

The Commission recognizes that there are other entities making pay increase recommendations for state employees to the Governor and General Assembly. The Personnel Advisory Board and the Missouri Commission on Total Compensation have worked cooperatively in past years to develop a consistent approach to pay increases across all state agencies for all state employees. The Commission recognizes that this effort had been quite successful in addressing compensation issues until the budget problems of the past two years prevented salary increases for Fiscal Year 2002 and Fiscal Year 2003. The Commission reviewed the pay increase recommendations for Fiscal Year 2004 made by the Personnel Advisory Board and the Missouri Commission on Total Compensation. The general recommendations applicable to all state employees include.

- 3.8 percent for a general structure adjustment. This adjustment reflects an average of several indexes used by the state to estimate inflation, the cost of living, and what other employers expect in terms of wage increases.
- One or two within grade steps to adjust salaries to the marketplace. This adjustment is recommended by the Personnel Advisory Board and the Missouri Commission on Total Compensation as a means of gradually bringing state employees up to the market rate paid by other employers. Each step averages about two percent for state employees.

The Commission, after careful consideration, approved a compensation schedule that provides for a 5.8 percent increase for both Fiscal Year 2004 and Fiscal Year 2005 for statewide elected officials and the General Assembly — 3.8 percent for a general structure adjustment and 2.0 percent equivalent to one within grade step. The Commission's compensation schedule is not intended to be added on top of any other general, uniform increase given to other state employees. Nor does the Commission intend that any general, uniform increase be added on top of the compensation schedule.

Health Care Costs

A number of witnesses told the Commission about the substantial increases in the cost of health care on state employees over the past several years. With multi-year increases in health care ranging well into the double-digits at the same time that salaries have been frozen, state employees, and the groups covered by our review, have in reality suffered net pay cuts. The Missouri Commission on Total Compensation also has reviewed this issue and recommends full funding of budget requests for any increase in health care costs in Fiscal Year 2004. The Clitizens' Commission on Compensation for Elected Officials is quite concerned that health care cost increases undermine any salary adjustments it recommends and supports full funding of those increases as well.

Judicial Salaries

The Commission must set the salaries for the various levels of the Judiciary - from an Associate Circuit Court Judge to a Supreme Court Judge. The Commission heard testimony about the fact that the judicial system competes in the marketplace for talented judges. We learned that law firms in Missouri are hiring top young lawyers right out of law school at salaries between \$70,000 and \$90,000. The testimony provided to the Commission emphasized that judges expect Open salaries for public service. However, the Commission heard in its public hearings that the degree of disparity is a major consideration for a person considering a decision to become a judge. The testimony indicated that the difference between the salary that a lawyer can make in private practice and a judge's salary cannot be too great without affecting the quality of those seeking judgeships. The Commission believes that it is essential that high quality individuals with experience be recruited to be judges. Otherwise, the quality of justice for Missourians will suffer.

The Missouri citizenry must have a judicial system of which they can be proud. Justice is best served with a judiciary with the ability to know the law, analyze the law, and apply it fairly and consistently. Judges set the tone for a model of excellence among the practicing bar. High judicial standards raise the level of the entire legal system as lawyers practicing before the bar perform at a high level. Thus, the entire system of justice, clients, and citizens harvest the benefits. Judges must possess compassion, understanding, and the common sense necessary to provide a sound judicial decision. To recruit and retain such persons requires fair compensation.

The Commission recognizes the importance of the Judiciary and recommends a \$6,000 increase in the base salary for both Fiscal Year 2004 and Fiscal Year 2005.

Supreme Court

The Commission also recognizes the additional service to Missouri provided by the Chief Justice of the Supreme Court. The Commission's compensation schedule provides an additional \$2,500 in compensation for both Fiscal Year 2004 and Fiscal Year 2005 as is current practice.

General Assembly

The Commission recognizes that the duties of a legislator are difficult, time consuming, and far outweigh the length of service generally associated with being in session. Legislators make a substantial commitment to address constituent's needs at all hours of the day and over the course of the entire year. We also recognize that these duties vary considerably amongst legislators with periodic peaks and valleys.

For Fiscal Year 2004 and Fiscal Year 2005, the Commission's compensation schedule provides for a continuation of the additional compensation given the seven traditional leadership positions in the legislature (Speaker of the House, President Pro Tem of the Senate, Speaker Pro Tem of the House, Majority Floor Leader of the House, Majority Floor Leader of the Senate, Minority Floor Leader the House, and Minority Floor Leader of the Senate).

The Future of the Commission

The members of the Commission worked very hard this year and in 2000 to meet the obligations established in the state constitution and entrusted to us by Missouri's voters. When a member accepts an appointment, whether it is from the Secretary of State, the Supreme Court, or the Governor, a commitment is established to spend the time necessary to participate in the process and deliver thoughtful, sensible recommendations. For two years members take time from their own jobs and personal lives to travel across the state to attend public hearings and other meetings of the Commission. Members review data, information, and testimony gathered at the public hearings. Members direct the Office of Administration to conduct research into salary and benefit issues. Due to the volunteer efforts of the members all of this takes place and a report is delivered for about \$20,000.

The current Commission delivered what it considers to be reasonable and appropriate recommendations this year and in 2000. The recommendations of the Commission were ignored and criticized in 1996, 1998, and 2000. Members of the Commission recognize that this year's recommendations may receive the same fate. If that is the case then it is clear that the current constitutional provisions are not working and will not work. The Commission recommends that the General Assembly either:

- a. Change the structure of the Commission so that the recommendations are binding upon the General Assembly and stand appropriated, or
- c. Abolish the Commission.

Members of the Commission do not believe that in 1994 Missoun's voters approved creation of the Citizen's Commission on Compensation on Elected Officials expecting that it would fail to achieve its purposes. Nor do the members believe that the voters expect the political wrangling over the Commission's recommendations to permanently prevent statewide elected officials, and members of the Judiciary and General Assembly from ever receiving any salary increase. However, the existence of the Commission and its recommendations have been used to forment antipathy for salary increases. The members of the Commission believe that some method of providing regular salary increases for statewide elected officials, the Judiciary, and the General Assembly is necessary to ensure that a diverse, high-quality group of individuals is willing to take these important jobs. Decisions by the individuals holding these positions affect every Missourian.

We believe that the voters should be given the opportunity to make changes to, or abolish, the Commission at the general election in August 2004. If the Commission is not abolished until November 2004 the Secretary of State, Governor, and the Supreme Court will have to start the process again in two years to enable the Commission to complete its public hearings and submit its recommendations by December 1 in accordance with the current constitutional provisions.

When government tries an activity that does not work it should be eliminated. Continuation of the Commission and the reaction to its recommendations only serve to bring state government into disrepute with Missourians. It is unfair to our citizens and the members of the Commission who take time out of their fives to serve the state to continue this process.

Missouri Citizens' Commission on Compensation for Elected

Officials

Dear Madam Secretary:

Pursuant to Article XIII, Section 3 of the Constitution of the State of Missouri, I herewith submit and file with your office the report and compensation schedule of the Citizens' Commission on Compensation of Elected Officials. Please see attached the list of the members of the Commission.

We who have had the honor and privilege of serving on this Commission have assumed our duties and responsibilities and have, in the short time allowed for the work of the Commission, made every effort to propose a compensation plan that will address the difficult situation that has existed since 2000 and will address the concerns of those to whom we have a responsibility and an obligation.

Our first allegiance must be to our fellow citizens of Missouri, who have a right to expect a government that attracts the finest public servants with compensation levels that are reasonable, fair, and consistent with the entire government workforce and within the financial means of the State.

We also have an obligation to Governor Matt Blunt who has the responsibility of managing and directing the state's affairs and allocating the scarce resources of the State.

The Missouri General Assembly must appropriate the financial resources of the State, and we have an obligation to consider carefully the very difficult responsibility this process entails. While we are charged with the responsibility of seeking to establish adequate compensation levels for the leaders of the State, we must also be mindful of the impact our decisions will have, not only on the state budget itself, but also with respect to the general impact our decisions can have on compensation paid regular state employees.

The Commission has the direct and primary obligation to those public servants that fall under the Commission's jurisdiction. In recent years the benefit of a Citizens' Commission has not been apparent to very many and as a result those public servants who can only be compensated under the schedules of these Commissions have endured six consecutive years of no increase whatsoever, while the consumer price index nationwide has advanced in excess of 20%. The Commission is cognizent that its schedule is subject to review by the General Assembly and has adopted a schedule it believes is reasonable under the circumstances and not inconsistent with other demands and obligations of the State.

Finally, the Commission feels a strong obligation to the dedicated members who served on the previous Commissions and whose many donated hours and investment of thought and deliberation did not always yield a positive result. We applaud the work of these fellow Commissioners and bring to our current task their history and experiences.

The Commission's organizational meeting occurred on November 20th, with a report due on December 1st. The Commission set its hearing schedule and proceeded with four public hearings in Jefferson City, Kansas City, St. Louis and Cape Girardeau. A number of witnesses appeared at each hearing and substantial information and recommendations were received. Any citizen or recipient of this report may contact the Office of Administration to obtain additional information with regard to these public hearings.

While there is great sentiment among some members of the Commission to forge ahead and simply set salaries where we sincerely believe they should be to attract the best and brightest to public service, we are constrained by our determination to prudently address inequities and present a plan that meets the objectives of the Governor and General Assembly in the allocation of scarce state resources over a period of time.

We have, therefore, with the goal in mind of submitting a reasonable and fair schedule, agreed to a plan that is basically corrective in nature. In the six years since 2000, the General Revenue budget has seen major reductions in all operating areas and the issue of government salaries has been, by necessity, bypassed in favor of ongoing state obligations and emergency needs. As a consequence of this belt tightening, the General Assembly appropriated increases for all state employees only twice. In 2003, each employee received a \$1200 increase and, in 2006, each employee received a 4% increase.

The schedule of this Commission calls for a catch-up program for the officials under our jurisdiction whereby they each receive the same increases allowed other state employees during the period 2000 to 2006.

Under the provisions of Amendment 7, passed overwhelmingly by the electorate this November, no member of the General Assembly is to receive any increase until January 2009. Accordingly, the catch-up provisions in the schedule for the executive and judicial branches will be held in abeyance for the General Assembly until January 2009. The Commission's schedule does, however, include the recommendation of previous Commissions that the per diem expense allowance for all members of the General Assembly continue to be set at 80% of the federal per diem.

The Commission is submitting two additional provisions as part of its schedule.

First, for the Fiscal Years beginning in July 2007 and July 2008, any increase in the salary of the average state worker shall be applied to the executive and judicial offices under the Commission's jurisdiction, and beginning in January 2009 the General Assembly shall receive the same increases. For purposes of the Commission's schedule, the "salary of the average state worker" is determined by the pay plan applicable to other state employees generally with all fixed amounts converted to the percentage increase for the average state employee.

Second, each Associate Circuit Judge shall receive a one-time payment of \$2,000 to partially compensate for the Circuit Court duties currently being assumed by Associate Circuit Court Judges throughout the state. The Commission believes that it is in the best Interests of the judiciary that the gap between Circuit and Associate Circuit Judges be gradually reduced until full recognition of the increased duties of Associate Circuit Judges is achieved in the level of compensation provided for that office.

In addition to the Commission's schedule, the Commission submits these additional comments and suggestions:

- 1) The state judiciary is currently undergoing critical review and analysis under the direction of the Supreme Court. The issue of allocation of judicial resources and judicial manpower will be reviewed and statutory or constitutional changes pertaining to the judiciary may result. These are issues that may affect compensation levels and may affect the distribution of workload among all judges. The Commission has not acted on future possible changes in this regard but believes that future Commissions will find these reports and changes useful in determining adequate judicial compensation.
- 2 The issue of legislative compensation is very complex and future Commissions may wish to address the basic concept of whether these offices have become full-time positions, considering the annual duties and responsibilities that require legislative attention both in the Capitol and in the legislative districts when the General Assembly is not in general session.

I also want to publicly express my appreciation to the Office of Administration for the great assistance provided by Deputy Commissioner Rich AuBuchon and his assistant Sara VanderFeltz. They kept us on schedule and were of invaluable assistance.

I will conclude by saying that it has been a great privilege and honor to have served on this Commission and to have served with such a distinguished, dedicated and diverse group of Missouri citizens. The Constitution adopted by the citizens of this state gave the responsibility of determining the salaries of elected officials to this Citizens' Commission, and we have discharged our responsibilities to the best of our ability.

We thank our fellow citizens for this opportunity to be of service to our great state.

From: Timothy A. Hufker Chairperson Missouri Citizens' Commission on Compensation for Elected Officials

Pursuant to article XIII, section 3 of the Missouri Constitution, we submit to and file with your office the report and compensation schedule of the Missouri Citizens' Commission on Compensation of Elected Officials.

It has been a distinct honor for those of us who have been appointed to this commission to serve the citizens of Missouri and to fulfill our responsibilities under the Missouri Constitution. The Citizens' Commission presently consists of 10 members. Nine of us were appointed at random from the registered voter rolls maintained by the secretary of state, with one appointee coming from each of the nine congressional districts; and one member was appointed by the Supreme Court of Missouri.

Former Chairperson Jack Pohrer, whose term ended December 31, 2007, advised that he had contacted the governor's office to determine whether he should continue in office until a replacement was appointed and should begin convening the requisite meetings of the commission. He was advised that his term and those of the other prior gubernatorial appointees had ended and that they were ineligible to continue serving. The commission thereafter proceeded with only those commissioners who had been appointed to current terms under the provisions of the Missouri Constitution.

Introduction - Page 2

Having accepted the appointment under the provisions of the constitution, each of us was determined to follow the protocols of the preceding commissions and to organize for the purpose of conducting hearings and making the recommendations contained in this report. As chairperson, I am very proud of our diverse group of citizens and their willingness to contribute the time and effort necessary, without compensation, to fulfill our constitutional obligations as commissioners and for the public good. A list of the commission's duly appointed members is included with the attached report.

The members of our commission have had the opportunity to review the work of previous commissions, including those that were organized by executive order in 1977 and 1983. Those commissions, like our own, took their obligations very seriously. Our primary obligation is to the citizens and taxpayers of Missouri to put forth our best efforts to compensate our state's leaders in a fair and equitable way with deference to budget constraints, economic conditions and the ability of the state to sufficiently fund vital services.

Our secondary obligation is to the elected officials of our state in the executive and legislative branches and to the elected and appointed judges who devote their legal careers to public service. This commission has great respect for Missouri's leaders, and it is our goal to recommend compensation levels that will continue to encourage the best people available to consider seeking public office. There are and always will be sacrifices to public service, but compensation levels should not be so low as to discourage the majority of citizens from participation.

Our commission met and held four public hearings in November 2008 and, like all citizens, our members are acutely aware of the enormous economic challenges facing Missouri and our country at this time in our history. We have reviewed the November 17 report of James Moody and Associates regarding the state of Missouri's budget and financial outlook, and it appears that our leaders will face significant challenges in the coming months. At the same time, it is also evident that significant economic and financial incentives on a massive scale are being undertaken at the national level. No one knows what impact these initiatives will have in the short or long term on the economy generally or on Missouri in particular. We are hopeful the results will be fruitful and profound.

We understand the Missouri budget process begins in January and concludes by early May. At that time, much more will be known about the state's financial resources and the state's ability to fund vital services and strategic goals. As a result, the commission's general approach — with one exception — has been to withhold recommendations for base salary increases for any of the offices covered and to recommend only that these offices receive a cost-of-living adjustment equal to the cost-of-living adjustment provided to average state employees for the next two years. If funds are not available for cost-of-living adjustments for average state employees, then they will not be available for the offices covered by this report. When this commission convenes again in 2010, it may be that economic conditions will permit the consideration of justifiable changes in compensation levels based upon relative merit and comparable data.

Intro	oduction - Page	3

Only with regard to the compensation of associate circuit judges did the commission believe strongly that a repositioning change in salary structure should occur. Statutory changes eliminated their jurisdictional limitations nearly 20 years ago, and in the last 10 years especially, there has been an ever-increasing reliance on the state's associate circuit judges to help dispose of the general circuit court workload. In addition to handling thousands of circuit court cases in the circuit in which they are elected or appointed to serve, large numbers of associate circuit judges also take transfers to overworked circuits in other parts of the state to provide ongoing assistance to help keep Missoun's dockets current.

The commission, therefore, recommends a modest repositioning adjustment of \$1,500 in each of the next two years to reduce the pay differential between an associate judge and a circuit judge to approximately 7 percent, which is approaching the same percentage differential that exists between the other levels of the judiciary. The commission strongly believes this modest change is both deserved and overdue.

The commission also received testimony about the Judicial Conference of Missouri's annual meeting and recommends that judges attending this meeting be provided expense reimbursement at the same per diem rate as members of the General Assembly. The Judicial Conference is a significant component of the judicial branch of government, and all state judges should be encouraged and supported to attend and participate in its meeting, which is important to the effective administration of justice in our state.

With respect to the commission's future deliberations in 2010, we expect we will have more time then to provide careful review of each office covered by article XIII, section 3 and, if financial circumstances warrant, we plan to consider adjustments then based on a variety of factors and criteria.

The executive branch has six offices for which we must recommend compensation, and in some instances, the compensation of the elected officeholder creates a ceiling for all others serving in the office. This can adversely affect recruitment of upper management, particularly those positions requiring individuals with experience and advanced professional degrees. We expect to examine comparable salaries in other states and other in-state positions as we consider appropriate compensation for these six offices.

The legislative branch presents some complex issues pertaining to the time required to attend the General Assembly and to provide service to constituents. Do we have a part-time citizen legislature or something quite different? How does compensation affect citizen interest in seeking these offices? These are questions we hope to explore in the future.

Introduction	Page 4

The judicial branch stands atone in that it prohibits outside income and in requiring both experience and a law degree. Judicial compensation in Missouri has fallen below that in surrounding states and is in the lower third of all states. Twenty years ago, of the applicants for judicial vacancies, generally 80 percent came from private practice and 20 percent from public service, including judges, prosecutors, public defenders and others. Testimony indicates that the current applicant pool has more than reversed, as many in private practice cannot afford the financial sacrifice necessary to become a judge. These will be important considerations for the commission's 2010 deliberations.

On behalf of the commission, we express our appreciation to the law firm of Lathrop & Gage L.C. and attorney Mark Levison for providing guidance in the organization and procedures of the commission. We also appreciate the assistance of the Office of Administration and staff in the three branches of our government.

I have been privileged to serve as chairperson of the commission, and it has been a very rewarding experience to meet and serve with the other members of the commission. I believe we have witnessed our democracy at work with ordinary citizens assuming great responsibility under our constitution and in doing their very best to make a meaningful contribution to effective government in fulfillment of their constitutional obligation.

Very traly yours

III. FOR JUDGES

In addition to the salary in effect on February 1, 2009, the salary for each Supreme Court, Court of Appeals, Circuit Judge and Associate Circuit Judge shall be increased for the fiscal years beginning July 1, 2009, and July 1, 2010, to the same extent the salary of the average state worker is increased. Each Associate Circuit Judge's salary also shall be repositioned to account for the responsibilities that have been added to their positions in the past number of years. To accomplish this repositioning, each Associate Circuit Judge's salary shall be repositioned on those dates by being increased by \$1,500 each year prior to calculating any salary increase resulting from the increase based on the increase in the average state worker's salary.

In addition to these amounts, a leadership differential of \$2,500 annually shall be paid to the judge serving as Chief Justice.

To the extent judges are entitled to receive any mileage reimbursement, they shall receive the same rate determined by the Office of Administration to reimburse state employees.

Report of the Missouri Citizens' Commission on Compensation for Elected Officials

24 November 2010

A. INTRODUCTION

Pursuant to article XIII, section 3 of the Missouri Constitution, the Citizens' Commission on Compensation hereby submits the following report establishing a compensation schedule for Missouri's statewide elected officials, legislators and judges.

This commission has had the honor of traveling across this state to hear testimony about this important subject and is convinced that the compensation of all of the officials subject to this report is lower than what should be paid for positions of this importance. However, it also has become clear from our meetings that judges are unique among the officials subject to the recommendations of this commission for at least two reasons that are significant to our deliberations. First, judges do not operate generally in the political context that by definition determines the roles of both statewide elected officials and members of the General Assembly. Judges are driven instead by facts and the law – and both the facts and the law in recent years surrounding judicial compensation point to an unfortunate lack of action on the reports of this commission, which we intend to rectify with this report. Second, judges are full-time cumployees, not part-time public servants, and tend to come to judicial service later in life than those who come to public service by election to political office in the legislative or executive branches.

These facts are relevant to this commission for various reasons. Because judges generally expect or seek to retain the positions they hold for a longer period of time – and because they hold that role full-time and are actually prevented by law from practicing law on the side—they must have an interest in their compensation. Members of the political branches, if they so choose, can forego addressing the issue of their own compensation, fearing the political obstacles presented by the issue and assured in the knowledge that, in the end, their current role is not their full-time profession. Missouri's judges do not have this luxury. They are totally subject to the effectiveness of this commission and to the subsequent adoption or rejection of its reports by the General Assembly.

In this context, this commission's work in determining judicial pay is perhaps its most important determination of all. Based on the information and recommendations presented at our various meetings by a diverse representation by lawyers, judges, retired judges and persons in the business community, the commission has become convinced that it is beyond time to devise a more reasonable – and, we hope, a more permanent – means of determining judicial salaries in Missouri once economic conditions are favorable for implementation. Accordingly, we propose what we believe is a viable long-term option: indexing Missouri judicial salaries to a percentage of the corresponding judicial position in the federal system.

The dynamic between the political branches' willingness to forego salary increases and the judiciary's ongoing demonstrated need and willingness to pursue such increases presents a dichotomy that this commission must address. This commission, therefore, is forced to concede that recommending any kind of increase for legislators or statewide elected officials at this time might cause its entire report to be rejected. The commission believes that such increases are warranted but hopes that by implementing this report, it at least can begin to address the demonstrated needs of the judiciary. It also hopes it can initiate some discussion with legislators and statewide elected officials about future increases for those branches of government. In the end, however, the commission no longer can tolerate the continued rejection of sensible, moderate pay increases for judges due to the near-term political concerns that have prevented far too many of this commission's reports from taking effect.

As we believe each commission before ours has done, current commission members performed their due diligence by reviewing past commission reports. We also analyzed, and gratefully acknowledge the submission of, the comparative salary information and proposals brought forward by judicial officials, as well as other relevant data we requested from various presenters. This information – detailing significant salary gaps between Missouri judges and other judges, other attorneys in Missouri and other public-sector executives in Missouri – has proved critical in writing this report. The commission also met on four different occasions. Information regarding those meetings, as well as a listing of current commission members, is in section D of this report.

In making its final recommendations, the commission was compelled to balance the state's and nation's current economic situation with the long-term need for a functional compensation structure for the state's judges. When combined with the fact that many of the past reports of this commission either have been disapproved or unfunded, the commission is even more compelled to find a long-term solution to this problem despite the current economic crisis. To balance the current economic situation with these ongoing long-term needs, therefore, the commission submits its official schedule of compensation as described in section B of this report.

B. OFFICIAL SCHEDULE OF COMPENSATION

1) FOR STATEWIDE ELECTED OFFICIALS

This schedule specifically authorizes a compensation structure identical to that which exists for statewide elected officials in fiscal 2011.

The compensation payable to each statewide elected official for fiscal 2012 and 2013 shall be equal to the compensation being paid to each such official for fiscal 2011.

The mileage reimbursement rate allowed for such officials shall be the same as that authorized by law for state employees.

2) FOR MEMBERS OF THE GENERAL ASSEMBLY

This schedule specifically authorizes a compensation structure identical to that which exists for members of the General Assembly in fiscal 2011.

The compensation payable to each member of the General Assembly for fiscal 2012 and 2013 shall be equal to the compensation being paid to each such member for fiscal 2011, including the leadership differentials being paid to those officials entitled to such differentials in fiscal 2011.

The mileage reimbursement rate allowed for such officials shall be the same as that authorized by law for state employees. The per diem rate allowed for such officials shall be the same as that authorized by section 21.145, RSMo.

3) FOR JUDGES

This schedule provides that each state judge's salary shall be indexed to the commensurate judicial position in the federal system: the chief justice of the Supreme Court of Missouri shall be indexed to the salary of the chief justice of the Supreme Court of the United States; all other judges of the Supreme Court of Missouri shall be indexed to the salaries of the sasociate justices of the Supreme Court of the United States; all judges on the Missouri court of appeals shall be indexed to the salaries of the judges on the federal circuit courts of appeals; all Missouri circuit judges shall be indexed to the salaries of judges on the federal district courts; and all Missouri associate circuit judges shall be indexed to the salaries of federal magistrates.

Official Schedule of Judicial Salaries for Fiscal 2012 and 2013

Fiscal	Chief Justice	Supreme Caurt Judge	Court of Appeals	Circuit Judge	Associate Circuit Judge
2012	Missouri liscal 2011 salary	Missouri fiscal 2011 salary	Missouri fiscal 2011 salary	Missouri fiscal 2011 salary	Missouri fiscal 2011 salary
2013	69% of federal chief justice salary	69% of federal Supreme Court associate justice salary	73% of federal circuit court of appeals judge salary	73% of federal district court judge salary	73% of federal magistrate salary

The mileage reimbursement rates allowed for such officials shall be the same as that authorized by law for state employees.

C. CONCLUSION

We believe the official schedule set out in section B above will begin to provide the longneeded structural change in judicial compensation that the testimony clearly showed to be necessary. Although these amounts may change depending on the level of federal judicial compensation at the time these recommendations take effect, it is necessary for purposes of transparency to inform readers of this report about the effects of this schedule were it to take effect today.

For fiscal 2012 (beginning July 1, 2011), there is no change in salary for any judge in Missouri. In recognition of the difficult budget year that the state of Missouri will face in fiscal 2012, the commission determined that an increase in that fiscal year would be unwise.

For fiscal 2013 (beginning July 1, 2012), the schedule would result in salaries of \$154,215 for the chief justice, \$147.591 for judges of the Supreme Court, \$134,685 for judges of the Court of Appeals, \$127,020 for circuit judges and \$116,858.40 for associate circuit judges.

As a caveat to the salaries described above, it is significant that the pension law changes (House Bill No. 1, 2010 extraordinary session) that take effect Jan. 1, 2011, require judges coming to judicial service after Jan. 1, 2011, to pay 4 percent of their salaries to help fund their pensions. For judges who begin their judicial careers in 2011 and after, therefore, salaries will be 4 percent less than those of their longer-serving counterparts.

By indexing salaries of Missouri judges to their federal counterparts, this commission hopes it may achieve a lasting solution to the problem of inadequate judicial compensation in this state and, therefore, provide the means to attract and retain the best possible judges to the bench. This commission hopes with all sincerity that its most recent effort at providing a solution to the ongoing need to increase judicial salaries will bear fruit.

We note that judges have not received any increase since fiscal 2009 (now nearly three years ago) and also did not receive any increase whatsoever for seven successive fiscal years (from fiscal 2001 through fiscal 2007). When one combines this lack of increases to the fact that the judiciary as a whole receives about 2 percent of the state's general revenue budget and less than 1 percent of the state's total budget – despite a statewide caseload of approximately 800,000 newly filed cases in fiscal 2009 and a judge shortage of approximately 54 judges statewide based on a recent study by the National Center for State Courts – the need for increases in judicial salaries over the long term becomes all the more glaring. This need is immediate, as further evidenced by the fact that over the last 10 years, five Supreme Court judges and at least 15 Missouri court of appeals judges have left the bench voluntarily prior to the mandatory retirement age. Such a continued loss of experienced and highly qualified members of the judiciary cannot be allowed to continue.

Despite these challenges, this commission's members retain optimism for the success of this report. By creating a structure in which no increases are given during the expected budget difficulties of fiscal 2012, we hope we have balanced the need for these increases with a corresponding sensitivity to the state's current economic situation.

The commission hopes that its future members will be able to start a dialogue with the statewide elected officials and legislators, none of whom presented any evidence to this commission and, therefore, received no recommended increases, despite the fact that many commission members believed that both legislators and statewide elected officials very likely were worthy of such increases. In addition, this commission's members wish to make some recommendations to the governor and the legislature as to this commission's structure - recommendations that we believe greatly would increase the effectiveness of this body's work:

- The time in which commissioners are appointed and the time during which this
 commission is asked to meet both should be expanded to reflect the need for a better
 researched, more deliberative approach to the important matter of studying and
 recommending compensation.
- The commission should be convened annually so that its members may receive testimony and consider long-term issues in the commission's non-report year. We hope this will enable us to dialogue with members of the General Assembly and with statewide elected officials as well as continue ongoing deliberations over judicial salaries that we intend to continue.
- The General Assembly, if it wishes not to approve its own pay raises, should consider the concept of decoupling its salary schedule from that of the judges and the statewide elected officials.
- 4. If decoupling is not considered an option, the General Assembly should expand the commission's authority to eliminate any legislative approval or disapproval of this commission's recommendations. Given the politically charged nature of approving, or being seen as having approved, one's own pay increase, the General Assembly should consider eliminating the current structure whereby it may reject reports by a two-thirds majority vote of both houses.

The commission wishes to thank those persons who took time to testify before this body; your service to this process is invaluable, and we hope that it will be rewarded. We hope those who read this report with the knowledge that it is their responsibility to adopt or reject its recommendations will consider the long-term effects of their deliberations. It is undoubtedly in the best interests of the citizenry of this state to pay our highest government officials a salary that is commensurate with the high level of importance to the welfare of the people of this state that each of these offices carries. If we are to live out the words inscribed on our state seal, "Salus Populi Suprema Lex Esto" (translated to "Let the Welfare of the People be the Supreme Law)," we cannot continue to ask those charged with the constitutional duty of protecting that welfare to do so without providing some semblance of reasonable compensation for the work they perform.

The commission urges every member of the General Assembly to consider this report in that context, knowing that a democracy can be only as strong as its most vulnerable citizens. Should we on this commission and those persons in the General Assembly not do all that we can to assure that the arbiters tasked with the duty of protecting the rights of those vulnerable citizens are as well-compensated as reasonably can be expected? We believe we owe the citizens of this state nothing less.

2010 CITIZENS' COMMISSON ON COMPENSATION JUDICIAL SALARY INFORMATION AND PROPOSAL

1. Introduction

Missouri's judges understand that they are in their judicial positions to serve the public and that those in public service should not expect high compensation for their service. This fact should not preclude Missouri from adequately compensating current judges while also seeking to recruit and retain the best possible persons for the bench. Missouri judges do not seek high pay; they seek appropriate compensation, commensurate with other public officials in Missouri and judges in other states and systems. Missouri has been losing experienced judges to the private sector and has had difficulty attracting quality, experienced attorneys from the private sector to aspire to the bench. After Jan. 1, 2011, recruitment will become more difficult, as escalating healthcare costs and new retirement legislation effectively will cut pay for new judges.

Judges recognize the difficult task placed on the Missouri Citizens' Commission on Compensation for Elected Officials, which the state constitution charges with setting compensation for Missouri's judges, statewide elected officials and legislators. The difficulty of this task is compounded by the continuing economic crisis, which strains all state revenues, making it difficult to implement this commission's recommendations in the near-term.

Despite these challenges, the commission can recommend a sensible, long-term salary structure for Missouri's judges to be implemented at a time in the future when economic factors make it more practicable. The information in this report suggests that, in hundreds of other instances, public entities in Missouri have determined that public service and adequate compensation need not be mutually exclusive. If the state of Missouri can compensate so many other positions at salaries that exceed that of every judge in this state, can it not compensate Missouri judges at rates that are roughly equivalent to — or at the very least begin to approach—the salaries paid to these other public servants?

This report provides relevant data¹ comparisons between Missouri's judges and judges in other jurisdictions, Missouri attorneys and other Missouri public employees – all of which illustrate the deep need for a structural increase in Missouri's judicial salaries. Now, Missouri's judges are paid less than those in all but a few states, less than the average salary for Missouri attorneys between the ages of 36 and 45, less than public school superintendents in 63 Missouri districts and even less than municipal judges in one Missouri city. These obvious discrepancies mar the judiciary's ability to serve as a separate branch of government and as the entity charged with protecting the rights of all Missouri's citizens. This report offers suggestions for a long-term solution that addresses the ongoing need to improve judicial salaries upon recovery from current economic conditions.

II. Judge Salary Comparisons

The following three tables – drawn from judicial salary data compiled by the National Center for State Courts – illustrate Missouri's poor standing in judicial pay compared with other states. Of particular note is that the salaries listed for Missouri's "trial court" judges include only circuit judges, paid \$120,484; they do not include Missouri's 225 associate circuit judges and commissioners who are paid only \$109,366.

¹ Judicial salary data are provided by the National Center for State Courts. All other data are based on the latest information gathered by staff of the state courts administrator's office.

This salary is for circuit judges. Associate circuit judges and commissioners make \$109,366. (National Center for State Courts, Survey of Judicial Salaries, Jan. 1, 2010)

When compared with states of a similar population, Missouri ranks dead last, with an average judge salary nearly \$20,000 less than judges in those states.

Beginning Jan. 1, 2011, all new judges in Missouri will be required to contribute 4 percent of their income toward their own retirement — basically creating a 4-percent net loss in salary for new judges.

III. Attorney Salary Comparisons

Although Missouri judges do not expect to earn on the bench what they would in private practice, the fact remains that private sector salaries in Missouri have lured experienced judges off the bench and back into firms, and only about 20 percent of those applying for judicial vacancies in Missouri are from the private sector. Private attorneys in Missouri already are paid below the national average – a 2009 national survey of law firms listed the average compensation for equity partners/shareholders at \$352,569, for non-equity partners at \$211,034 and for associates at \$136,414. (ALM Legal Intelligence)

if Missouri does not provide salaries for the vast majority of its judges that are competitive with even the average junior partner in private practice, how can the judiciary ever reasonably expect to draw from the ranks of the above-average senior partners that it reasonably should want to recruit to the bench?

The average partner at one of Missouri's lop-grossing law firms can expect to make two, five or sometimes even 10 times as much as every judge in Missouri – again impacting the judiciary's ability to recruit and retain highly qualified individuals.

Even the average attorney as young as 36 years old has a higher average salary than the chief justice of Missouri. Until recently, tawyers with more than 20 years in practice – or those 46 years old or older – were considered best-qualified for the bench; now, younger lawyers with less experience are becoming judges.

Even setting private law firms aside, Missouri judicial salaries do not compare with those of deans and full professors at public law schools in Missouri and surrounding states – even before considering the bonuses, textbook royalties or other payments that such professors may receive. Minimizing this gap would help the judiciary attract and retain the best possible intellectual candidates from a range of backgrounds.

IV. Public Employee Salary Comparisons

Large numbers of other public employees in Missouri make more – in some cases, substantially more – than any judge in Missouri, including the chief justice. These employees represent state, county, district and even municipal entities. This is not to say those positions are not deserving of the salaries they are paid or benefits to which they are entitled; it merely raises the question of why judges who serve the state are not entitled to salaries and benefits that at least begin to approach the compensation levels of other public employees in Missouri.

For example, there are 683 non-physician employees of public universities whose average base salary (not counting textbook royalties, bonuses, or other payments to which some of these employees may be entitled) exceed by nearly \$49,000 the salary of all Missouri state judges.

Table 9. Public University Employees - Excluding Physicians

Focusing just on the leaders of Missouri's public universities, the lowest-paid president or chancellor earns nearly \$39,500 more than the state's chief justice, who by constitution effectively serves as the chief executive officer for the third branch of government.

The compensation disparity extends to other local government employees as well. There are at least 35 employees of county- or special district-level entities who earn more than any Missouri state judge.

Of particular note is the salary of a Kansas City municipal judge – \$144,875 per year – which exceeds that of the state's chief justice by more than \$5,000.

The work of a municipal judge – or any of these city-, district- or county-level employees – is busy and important. Certainly local governmental entities must recruit expertise from both the public and private sector to ensure the best services possible are delivered to local citizens. The average citizen, however, might wonder what makes employment in a local government entity more valuable than that of the judges who must decide cases affecting the lives of Missouri citizens throughout the state.

V. Adequate Compensation for Judges

Portions of compensation for other state officials is tied to a federal index – the per diem Missouri's legislators receive is based on a percentage of the per diem received by their counterparts at the federal level. Using this as a model, one suggestion for setting judicial pay might be to base the salaries of Missouri's judges on a percentage of their closest counterparts at the federal level. While it is not anticipated that Missouri judicial salaries reach the same level of pay as the federal bench, the gap ought not be so wide that the pay for even the chief justice

of Missouri is substantially lower – more than \$20,500 lower, in fact – than the pay for the lowest-level federal judge (a magistrate).

Setting the state judges' salaries at, for example, 80 percent of the corresponding federal judges' salaries would eliminate future political struggles over judicial pay while providing a transparent, easily understood method for establishing judicial salaries. Such an index also takes into account the nation's economic condition, assuming Congress would not raise federal judges' salaries if doing so were not fiscally appropriate. The table below illustrates this comparison:

Table 14. Comparison of Missouri Judicial Salaries with Their Federal Correspondents

Such an index would provide a meaningful increase for Missouri's judges and would keep their salaries in the middle third of state judicial pay in all categories.

VI. Past Compensation Plans

Compensation of Missouri's judges – as well as legislators and statewide executive officers – is subject only to the recommendations of this commission and subsequent action by the General Assembly. Of these state officers, only judges are career employees. Past commissions have demonstrated exemplary understanding of the unique needs of the state's judges, particularly in light of other factors affecting judicial recruitment and retention, and have made solid recommendations regarding judicial pay. Setting appropriate salaries, however, is only part of the difficult task faced by the commission.

The legislature has not always approved the commission's pay plans. "For most of Missouri's history, ... legislators have had difficulty increasing ... compensation and many legislators have found it popular to oppose them." (David Valentine, Citizens' Commission on Compensation for Elected Officials, Report 07-2008, revised February 2008, Missouri Legislative Academy, Institute of Public Policy, Harry S. Truman School of Public Affairs, University of Missouri-Columbia, at Page 2.) The commission was established by vote of Missouri's citizens at the November 1994 general election and made its first recommendations two years later. Originally,

the General Assembly could disapprove the commission's recommendations by a simple majority vote, and the General Assembly also had the ability to withhold some or all of the funding for the commission's recommendations. In November 2006, Missouri voters amended the constitution so the commission's recommendations automatically would take effect and would be funded unless two-thirds of both chambers of the General Assembly specifically disapproved the recommendations. This "revision specifically was designed to overcome legislators' aversion to approving pay raises for themselves and other elected officials." (Valentine at Page 3.)

The General Assembly disapproved the report (SCR 3 passed; HCR 3 failed) but, through the appropriations process, granted COLAs of 2.9 percent for fiscal 1998 and about 5.1 percent for fiscal 1999.	For fiscal 1998, granted 1-percent plus a one- or two-step increase. For fiscal 1999, granted 1-percent plus a one- or two-step increase.

The General Assembly appropriated the salaries as recommended for fiscal 2000, but the governor votoed the appropriation. For fiscal 2001, the legislature appropriated salaries at CJ – \$125,500 SCt judge – \$123,000 CIAPP – \$115,000 Circuit – \$108,000 Associate – \$96,000	For fiscal 2000, granted 1-percent plus a one- or two-step increase. For fiscal 2001, granted 5800 plus a one-step increase effective July 1, 2000, plus another \$420 effective Jan 1, 2001.
2000	For fiscal 2002 and again in fiscal 2003, each judge to receive a 5.5-percent increase in base salary. For fiscal 2002 only, associate circuit judges to receive an additional \$1,000.	The General Assembly disapproved the report (SCR 2 passed; HCRs 7 and 8 failed) and did not appropriate any COLAs.	The previous \$420 COLA continued for the remainder of fiscal 2002, No COLA granted for fiscal 2003.
2002	For fiscal 2004 and again in fiscal 2005, each judge to receive a \$6,000 increase in base salary.	The General Assembly disapproved the report (SCR 1 passed; HCR 4 failed) and did not appropriate any COLAs.	For fiscal 2004, granted \$50 to only those earning less than \$40,000 annually, For fiscal 2005, granted \$1,200.
2004	No commission members were appointed, so there was no commission to meet.	Because there was no commission, there was no report. No COLA was appropriated separately.	For fiscal 2006, no COLA. For fiscal 2007, granled 4-percent.

Associate circuit judges to receive an additional \$2,000. Each judge also to receive any COLA recommended for average state workers for fiscal 2008.	The General Assembly did not disapprove the report (both HCR 3 and SCR 4 failed), which became effective July 1, 2007. All increases, including the CDLAs for each fiscal year, were appropriated as recommended.	For fiscal 2008, granted 3-percent. For fiscal 2009. granted 3-percent.
	For fiscal 2009, each judge to receive any COLA recommended for average state workers for fiscal 2009.		
2008	Each judge to receive any COLA increase recommended for the avorage state worker. Associate circuit judges to receive a \$1,500 increase in fiscal 2009 and again in fiscal 2010.	The General Assembly disapproved the report (HCR 5 passed; SCR 6 failed) and did not appropriate any COLAs.	No COLAs granted for either fiscal year.

VII. Conclusion - Possible Solutions

The current salaries of Missouri's judges – ranging from \$109,366 for associate circuit judges to \$139,534 for the chief justice – do not reflect the complexity and difficulty of the tasks judges are asked to perform, especially in comparison with the salaries paid to judges in other states, to private attorneys in Missouri and to a wide variety of public employees in Missouri. If Missouri's judges continue to receive less than a parks and recreation director in a major municipality, or less than the average junior partner in a Missouri law firm, the judicial profession will suffer a decline in quality and stature that could diminish the justice our citizens are able to receive.

Although ongoing economic challenges preclude this commission from remedying these compensation issues immediately, the commission has an opportunity now to ensure this disparity will be rectified once economic conditions improve. To help avoid the fate many previous commission reports have fared, it might be useful to propose a different kind of report, both in its recommendations and its structure, to ensure its success.

One solution might be to employ a phased-in recommendation structure. This two-pronged approach would involve proposing a salary structure that meets the long-term, ongoing need for appropriate judicial compensation by indexing Missouri judicial salaries at 80 percent of the corresponding federal judicial salaries (as discussed above in section V). The second prong would involve delaying payment of that new salary structure to ensure balance between salary needs and economic recovery. To achieve this balance, the commission might designate that the new salary structure would take effect only if certain sustained economic growth is achieved in Missouri and even then not before fiscal 2013.

The commission also might issue separate reports for each branch of government. Public debate in legislative committees and on the floor of both chambers of the General Assembly has indicated broad support for judicial pay increases. These increases typically have not been approved, however, because the legislators' and statewide elected officials' proposed salaries are included in the same report as the judges' proposed salaries — and legislators do not want to raise their own pay. Separating the proposals into individual reports, one for each branch, would permit each to be approved or disapproved on its own merits or, as has seemed to be the case in the past, within its own unique political context.

Report of the Missouri Citizens' Commission on Compensation for Elected Officials

November 25, 2014

A. INTRODUCTION

Pursuant to article XIII, section 3 of the Missouri Constitution, we submit to and file with your office the report and compensation schedule of the Missouri Citizens' Commission on Compensation for Elected Officials.

It has been the distinct honor for those of us who have been appointed to this Commission to serve the citizens of Missouri and to fulfill our responsibilities under the Missouri Constitution. The Citizens' Commission consists of 21 members. Eight members of the Commission were selected at random by the secretary of state from each congressional district from the registered voter rolls, twelve members were appointed by the governor, and one member is a retired judge appointed by the judges of the Supreme Court. The composition of the Commission reflects the diversity of our great state. By design, representation was drawn from all regions of the state and each member that participated gave focused attention to the task. As a result, unanimity of opinion was not achieved. Recognizing this, the Commission worked diligently to fairly strike that balance between adequate compensation and budgetary restraints, and consensus was reached for each compensation decision outlined in this report.

Because there were no members appointed or selected for the commission in 2012, no report was filed that year. Knowing this, our Commission was determined to meet with due diligence and to contribute the time and effort necessary, without compensation, to fulfill our constitutional obligations as commissioners for the public good. A list of the Commission's duly appointed members is included with the attached report. Our primary obligation is to the citizens and taxpayers of Missouri to put forth our best efforts to compensate our state's leaders—who have not received increased compensation for the last seven years—in a fair and equitable way with deference to budget constraints, economic conditions, and the ability of the state to sufficiently fund vital services.

This Commission believes that the elected officials of our state in the executive and legislative branches should now be given due compensation for their commitment to public service and recommends compensation levels that will encourage and allow Missouri citizens to consider a public servant role in the State of Missouri. There are and will always be sacrifices to public service, but compensation levels should not be so low as to discourage the majority of citizens from participation. The Commission has taken notice of the disparity that currently exists between amounts paid to both the General Assembly and statewide elected officials, and the responsibility associated with each of these positions.

Based on testimony from witnesses and an analysis of evidence considered by the Commission, the Commission has determined that compensation for these offices does not correctly reflect their required responsibilities. Members of the General Assembly are not only defenders of the Missouri Constitution, but they are also expected to understand complicated public policy issues, including such issues as education and health care. The Commission also notes that the legislature is called upon to wrestle with complicated fiscal issues such as balancing Missouri's 27 billion dollar budget. Much is expected of our

public office holders and appropriate compensation for these critical positions is essential if we are to encourage Missouri citizens to consider public office.

While we are also required to review the compensation of judges, the 2010 Commission recommended the compensation of judges be aligned with the commensurate judicial position in the federal system based upon the similarity of work. We feel that the recommendation was fair and equitable; therefore, our recommendation of compensation for judges remains as it was in the 2010 recommendation.

Our Commission met and held four public hearings across the state to hear testimony about this important subject. The Commission believes that the compensation of all elected officials subject to this report is a lower remittance for positions of this importance. Based on available data, our elected officials are underpaid based upon duties and responsibilities associated with like positions throughout the nation. A significant minority of the Commission believes that the current economic conditions and the accompanying budget constraints on essential services make it challenging to recommend any increase in salaries for state officials at this time in excess of the COLA that the budget and appropriation process makes available to all state employees. However, additional data from the 2014 Moody's analysis provides that Missouri's economic recovery is accelerating in line with the national average and that Missouri will strengthen over the next several quarters due to an improvement in the job market. This analysis suggests to a majority of the Commission that the future economic state of Missouri now will permit the consideration of justifiable changes in compensation levels of elected officials based upon relative merit and comparable data.

The Commission urges every member of the General Assembly to consider this report in that context, knowing that a democracy can only be as strong as its most vulnerable citizens. Should we on this Commission, and those persons in the General Assembly, not do all we can to ensure all elected officials are as fairly compensated as can be reasonably expected? We believe we owe the citizens of this state nothing less.

B. OFFICIAL SCHEDULE OF COMPENSATION

FOR MEMBERS OF THE GENERAL ASSEMBLY
 This schedule specifically authorizes a two year compensation approach for each member of the General Assembly.

The compensation payable to all members of the State of Missouri General Assembly for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by \$2000 each year, for a total increase of \$4000. This equates to approximately an 11% total increase over the two-year period for senator and representative positions. The percentage increase is slightly lower for leadership as the Commission recommends increasing compensation by the same dollar amount for all members in order to maintain the leadership differentials outlined in Sec. 21.140, RSMo. The following chart shows the specific dollar amounts each General Assembly member position shall be paid in each year.

General Assembly Members	FY 2016	FY 2017
Senators	\$37,915	\$39,915
Senate President Pro Tem	\$40,415	\$42,415
Senate Majority Floor Leader	\$39,415	\$41,415
Senate Minority Floor Leader	\$39,415	\$41,415
Representatives	\$37,915	\$39,915
Speaker of the House	\$40,415	\$42,415
Speaker Pro Tem of the House	\$39,415	\$41,415
House Majority Floor Leader	\$39,415	\$41,415
House Minority Floor Leader	\$39,415	\$41,415

The total additional cost to the state of Missouri for the recommended salary adjustments to all General Assembly members is \$394,000 in FY 2016 and an additional \$394,000 in FY 2017.

To the extent members of the General Assembly are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent members of the General Assembly are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

2) FOR STATEWIDE ELECTED OFFICIALS

This schedule specifically authorizes a two year compensation approach for all statewide elected officials

The compensation payable to the Governor of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased 8% each year, which brings the salary equivalent to \$144,527 for FY 2016 and \$156,089 for FY 2017.

The compensation payable to the Lieutenant Governor of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by \$4,757 each year, for a total increase of \$9,514. This equates to approximately an 11% total increase over the two-year period of FY 2016 and FY 2017. The Commission bases its recommendation for the Lieutenant Governor's salary adjustment on the position's responsibilities as ex officio president of the senate. The Commission believes the most equitable salary adjustment is one that is in proportion to the Commission's recommended salary adjustment for the General Assembly members.

The compensation payable to the Attorney General of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by 8% each year, which brings the salary equivalent to \$125,752 for FY 2016 and \$135,812 for FY 2017.

The compensation payable to the State of Missouri Treasurer, the Missouri Secretary of State, and the State of Missouri Auditor for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased 8% each year, which brings the salary equivalent to \$116,366 for FY 2016 and \$125,675 for FY 2017

The total additional cost to the state of Missouri for the recommended salary adjustments to all statewide elected officials is \$50,638 in FY 2016 and an additional \$54,306 in FY 2017.

To the extent statewide elected officials are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent statewide elected officials are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

FOR JUDGES

This schedule specifically authorizes a compensation structure identical to the recommendation in the 2010 report. The state judges' salaries shall be indexed to the commensurate judicial position in the federal system.

Official Schedule of Judicial Salaries for Fiscal 2015 - 2017

Fiscal	Chief Justice	Supreme Court Judge	Court of Appeals	Circuit Judge	Associate Circuit Judge
2015	\$176,295	\$168,636	\$154,176	\$145,343	\$133,716
2016	\$178,089	\$170,292	\$155,709	\$146,803	\$135,059
2017*	69% of federal chief justice salary	69% of federal Supreme Court associate justice salary	73% of federal circuit court of appeals judge salary	73% of federal district court judge salary	73% of federal magistrate salary

2017* Due to the federal fiscal calendar, a potential judicial increase will not be available until October 2017 but will remain at the above referenced percentage rate.

To the extent judges are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent judges are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

C. CONCLUSION

The members of the Commission had the opportunity to review the 2008 and 2010 reports of the previous commissions and quickly understood the daunting task at hand. Without regard to the political affiliations of any current legislative or executive office holder, the Commission respectfully examined the value of each of these positions relative to their respective responsibilities. The statewide elected appointments are full-time positions and, when compared with similar private or public entities, the Commission determined that these positions are substantially underpaid for the responsibilities required. Indeed, the Commission here notes one such example of this pay disparity: currently in FY 2015, the compensation for full-time county prosecutors in Missouri exceeds the salary of the Attorney General by almost \$18,000.00 (approximately 15%). (Sec. 56.265.1, RSMo).

Additionally, the Commission determined that although the legislator position may appear to be a parttime role in a citizens' legislature, the time required for the person elected to one of these positions is most often a full-time responsibility. The position entails more than just a January to mid-May, Monday through Thursday schedule. Constituents need their legislators available for comments, concerns, and assistance year-round.

The Commission accepted the comparative salary information, the constitutional duties for the elected positions, and other relevant data requested and provided in its consideration of appropriate compensation. We noted that the statewide elected officials and legislators have foregone raises for the past seven years. This information provided the basis for the analysis of the salary gaps existing between Missouri public servants and other states' public servants and private entities. Therefore, we feel it is important to begin a process of compensating these individuals an appropriate "worth value" for their services, and this is the first step toward resolving such inequifies.

In addition to the foregoing summary of its activities and the adoption of the constitutionally mandated schedule of compensation for statewide elected officials, members of the General Assembly, and Article V Judicial Department, this Commission believes as did the 2010 Commission, that greater care should be given to the process and timing of the constitution of the Commission and more time should be allowed for the Commission to organize and to receive and analyze information in a more deliberative fashion. Additional time would also afford the general public with a fair and ample opportunity to offer public testimony. During the short window of time, the Commission heard from two public witnesses (as compared with zero in 2010). The citizenry needs and deserves a more meaningful opportunity to participate in this important process.

The Commission would also benefit from formal testimony or communication from each of the state's constitutional officers, from a representative of the state's judiciary, and from the leadership from both houses of the General Assembly. Information from these officers will provide the Commission with a deeper understanding of their view of these issues. Although their testimony would in up way bind the deliberations of the Commission, their perspectives would serve to better inform the Commission.

This Commission met five times, including four public hearings and one final voting meeting. The meeting information is referenced in Section D of this report, which also includes a list of the Commission members.

The Commission wishes to thank those persons who testified before this body, providing invaluable information to the Commission. We hope that this report is given appropriate consideration to achieve a

fair and equitable compensation for our Missouri leaders, with the expectation that it will encourage and allow even more Missouri citizens to consider a public servant role.

Report of the Missouri Citizens' Commission on Compensation for Elected Officials

November 25, 2014

A. INTRODUCTION

Pursuant to article XIII, section 3 of the Missouri Constitution, we submit to and file with your office the report and compensation schedule of the Missouri Citizens' Commission on Compensation for Elected

It has been the distinct honor for those of us who have been appointed to this Commission to serve the citizens of Missouri and to fulfill our responsibilities under the Missouri Constitution. The Citizens' Commission consists of 21 members. Eight members of the Commission were selected at random by the secretary of state from each congressional district from the registered voter rolls, twelve members were appointed by the governor, and one member is a retired judge appointed by the judges of the Supreme Court. The composition of the Commission reflects the diversity of our great state. By design, representation was drawn from all regions of the state and each member that participated gave focused attention to the task. As a result, unanimity of opinion was not achieved. Recognizing this, the Commission worked diligently to fairly strike that balance between adequate compensation and budgetary restraints, and consensus was reached for each compensation decision outlined in this report.

Because there were no members appointed or selected for the commission in 2012, no report was filed that year. Knowing this, our Commission was determined to meet with due diligence and to contribute the time and effort necessary, without compensation, to fulfill our constitutional obligations as commissioners for the public good. A list of the Commission's duly appointed members is included with the attached report. Our primary obligation is to the citizens and taxpayers of Missouri to put forth our best efforts to compensate our state's leaders-who have not received increased compensation for the last seven years-in a fair and equitable way with deference to budget constraints, economic conditions, and the ability of the state to sufficiently fund vital services.

This Commission believes that the elected officials of our state in the executive and legislative branches should now be given due compensation for their commitment to public service and recommends compensation levels that will encourage and allow Missouri citizens to consider a public servant role in the State of Missouri. There are and will always be sacrifices to public service, but compensation levels should not be so low as to discourage the majority of citizens from participation. The Commission has taken notice of the disparity that currently exists between amounts paid to both the General Assembly and statewide elected officials, and the responsibility associated with each of these positions.

Based on testimony from witnesses and an analysis of evidence considered by the Commission, the Commission has determined that compensation for these offices does not correctly reflect their required responsibilities. Members of the General Assembly are not only defenders of the Missouri Constitution, but they are also expected to understand complicated public policy issues, including such issues as education and health care. The Commission also notes that the legislature is called upon to wrestle with complicated fiscal issues such as balancing Missouri's 27 billion dollar budget. Much is expected of our

public office holders and appropriate compensation for these critical positions is essential if we are to encourage Missouri citizens to consider public office.

While we are also required to review the compensation of judges, the 2010 Commission recommended the compensation of judges be aligned with the commensurate judicial position in the federal system based upon the similarity of work. We feel that the recommendation was fair and equitable; therefore, our recommendation of compensation for judges remains as it was in the 2010 recommendation.

Our Commission met and held four public hearings across the state to hear testimony about this important subject. The Commission believes that the compensation of all elected officials subject to this report is a lower remittance for positions of this importance. Based on available data, our elected officials are underpaid based upon duties and responsibilities associated with like positions throughout the nation. A significant minority of the Commission believes that the current economic conditions and the accompanying budget constraints on essential services make it challenging to recommend any increase in salaries for state officials at this time in excess of the COLA that the budget and appropriation process makes available to all state employees. However, additional data from the 2014 Moody's analysis provides that Missouri's economic recovery is accelerating in line with the national average and that Missouri will strengthen over the next several quarters due to an improvement in the job market. This analysis suggests to a majority of the Commission that the future economic state of Missouri now will permit the consideration of justifiable changes in compensation levels of elected officials based upon relative merit and comparable data.

The Commission urges every member of the General Assembly to consider this report in that context, knowing that a democracy can only be as strong as its most vulnerable citizens. Should we on this Commission, and those persons in the General Assembly, not do all we can to ensure all elected officials are as fairly compensated as can be reasonably expected? We believe we owe the citizens of this state nothing less.

B. OFFICIAL SCHEDULE OF COMPENSATION

General Assembly.

1) FOR MEMBERS OF THE GENERAL ASSEMBLY This schedule specifically authorizes a two year compensation approach for each member of the

The compensation payable to all members of the State of Missouri General Assembly for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by \$2000 each year, for a total increase of

\$4000. This equates to approximately an 11% total increase over the two-year period for senator and representative positions. The percentage increase is slightly lower for leadership as the Commission recommends increasing compensation by the same dollar amount for all members in order to maintain the leadership differentials outlined in Sec. 21.140, RSMo. The following chart shows the specific dollar amounts each General Assembly member position shall be paid in each year.

General Assembly Members	FY 2016	FY 2017
Senators	\$37,915	\$39,915
Senate President Pro Tem	\$40,415	\$42,415
Senate Majority Floor Leader	\$39,415	\$41,415
Senate Minority Floor Leader	\$39,415	\$41,415
Representatives	\$37,915	\$39,915
Speaker of the House	\$40,415	\$42,415
Speaker Pro Tem of the House	\$39,415	\$41,415
House Majority Floor Leader	\$39,415	\$41,415
House Minority Floor Leader	\$39,415	\$41,415

The total additional cost to the state of Missouri for the recommended salary adjustments to all General Assembly members is \$394,000 in FY 2016 and an additional \$394,000 in FY 2017.

To the extent members of the General Assembly are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent members of the General Assembly are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

2) FOR STATEWIDE ELECTED OFFICIALS

This schedule specifically authorizes a two year compensation approach for all statewide elected officials.

The compensation payable to the Governor of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shalf be increased 8% each year, which brings the salary equivalent to \$144,527 for FY 2016 and \$156,089 for FY 2017.

The compensation payable to the Lieutenant Governor of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by \$4,757 each year, for a total increase of \$9,514. This equates to approximately an 11% total increase over the two-year period of FY 2016 and FY 2017. The Commission bases its recommendation for the Lieutenant Governor's salary adjustment on the position's responsibilities as ex officio president of the senate. The Commission believes the most equitable salary adjustment is one that is in proportion to the Commission's recommended salary adjustment for the General Assembly members.

The compensation payable to the Attorney General of the State of Missouri for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased by 8% each year, which brings the salary equivalent to \$125,752 for FY 2016 and \$135,812 for FY 2017.

The compensation payable to the State of Missouri Treasurer, the Missouri Secretary of State, and the State of Missouri Auditor for fiscal years beginning July 1, 2015 and July 1, 2016 shall be increased 8% each year, which brings the salary equivalent to \$116,366 for FY 2016 and \$125,675 for FY 2017

The total additional cost to the state of Missouri for the recommended salary adjustments to all statewide elected officials is \$50,638 in FY 2016 and an additional \$54,306 in FY 2017.

To the extent statewide elected officials are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent statewide elected officials are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

3) FOR JUDGES

This schedule specifically authorizes a compensation structure identical to the recommendation in the 2010 report. The state judges' salaries shall be indexed to the commensurate judicial position in the federal system.

Official Schedule of Judicial Salaries for Fiscal 2015 - 2017

2017* Due to the federal fiscol calendar, a potential judicial increase will not be available until October 2017 but will remain at the above referenced percentage rate.

To the extent judges are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent judges are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

C. CONCLUSION

The members of the Commission had the opportunity to review the 2008 and 2010 reports of the previous commissions and quickly understood the daunting task at hand. Without regard to the political affiliations of any current legislative or executive office holder, the Commission respectfully examined the value of each of these positions relative to their respective responsibilities. The statewide elected appointments are full-time positions and, when compared with similar private or public entities, the Commission determined that these positions are substantially underpaid for the responsibilities required. Indeed, the Commission here notes one such example of this pay disparity: currently in FY 2015, the compensation for full-time county prosecutors in Missouri exceeds the salary of the Attorney General by almost \$18,000.00 (approximately 15%). (Sec. 56.265.1, RSMo).

Additionally, the Commission determined that although the legislator position may appear to be a parttime role in a citizens' legislature, the time required for the person elected to one of these positions is most often a full-time responsibility. The position entails mere than just a January to mid-May, Monday through Thursday schedule. Constituents need their legislators available for comments, concerns, and assistance year-round.

The Commission accepted the comparative salary information, the constitutional duties for the elected positions, and other relevant data requested and provided in its consideration of appropriate compensation. We noted that the statewide elected officials and legislators have foregone raises for the past seven years. This information provided the basis for the analysis of the salary gaps existing between Missouri public servants and other states' public servants and private entities. Therefore, we feel it is important to begin a process of compensating these individuals an appropriate "worth value" for their services, and this is the first step toward resolving such inequities.

In addition to the foregoing summary of its activities and the adoption of the constitutionally mandated schedule of compensation for statewide elected officials, members of the General Assembly, and Article V Judicial Department, this Commission believes as did the 2010 Commission, that greater care should be given to the process and timing of the constitution of the Commission and more time should be allowed for the Commission to organize and to receive and analyze information in a more deliberative fashion. Additional time would also afford the general public with a fair and ample opportunity to offer public testimony. During the short window of time, the Commission heard from two public witnesses (as compared with zero in 2010). The citizenry needs and deserves a more meaningful opportunity to participate in this important process.

The Commission would also benefit from formal testimony or communication from each of the state's constitutional officers, from a representative of the state's judiciary, and from the leadership from both houses of the General Assembly. Information from these officers will provide the Commission with a deeper understanding of their view of these issues. Although their testimony would in no way bind the deliberations of the Commission, their perspectives would serve to better inform the Commission.

This Commission met five times, including four public hearings and one final voting meeting. The meeting information is referenced in Section D of this report, which also includes a list of the Commission members.

The Commission wishes to thank those persons who testified before this body, providing invaluable information to the Commission. We hope that this report is given appropriate consideration to achieve a

fair and equitable compensation for our Missouri leaders, with the expectation that it will encourage and allow even more Missouri citizens to consider a public servant role.

Report of the Missouri Citizens' Commission on Compensation for Elected Officials

December 1, 2016

A. INTRODUCTION

In order to ensure that the power to control the rate of compensation of Missouri's elected officials is retained and exercised by the tax paying citizens of Missouri, the Missouri Constitution calls for the creation of a commission known as the "Missouri Citizens' Commission on Compensation for Elected Officials" (the "Commission"). The Commission is comprised of Missouri residents selected both at random by the secretary of state and by the governor (by and with the advice and consent of the senate) and meets biannually to hold public hearings throughout the state and to review and make recommendations regarding annual compensation of all elected state officials, members of the general assembly, and non-municipal judges. Commission members are not compensated for their service (other than reimbursement for actual and reasonable travel expenses to attend Commission meetings).

The Commission members have been honored to serve the citizens of Missouri by fulfilling our responsibilities under the Missouri Constitution, and have performed due diligence to this end, reviewing and analyzing past commission reports, available comparative salary data and other economic data, and holding public hearings to provide citizens of Missouri an opportunity to provide testimony for review and incorporation into this final report. The Commission believes that the elected officials of our state in the executive and legislative branches should now be given due compensation for their commitment to public service, and worked diligently to strike a balance between adequate compensation and budgetary restraints. Unanimous consensus was reached for each compensation decision outlined in this report. The Commission respectfully submits these recommendations regarding the fair and equitable compensation of our state's elected public servants with deference to budget constraints, economic conditions, and the ability of the state to sufficiently fund vital services.

B. OFFICIAL SCHEDULE OF COMPENSATION

FOR MEMBERS OF THE GENERAL ASSEMBLY
 This schedule specifically authorizes a two year compensation approach for each member of the General Assembly.

The compensation payable to all members of the State of Missouri General Assembly for fiscal years beginning July 1, 2017 (FY 2018) and July 1, 2018 (FY 2019) shall be increased by two and one half percent each year for the next two years. The percentage increase is slightly lower for leadership as the Commission recommends increasing compensation by the same dollar amount for all members in order to maintain the leadership differentials outlined in Sec. 21.140, RSMo. The following chart shows the specific dollar amounts each General Assembly member position shall be paid in each year.

General Assembly Members	FY 2018	FY 2019
Senators	\$36,813	\$37,733
Senate President Pro Tem	\$39,313	\$40,233
Senate Majority Floor Leader	\$38,313	\$39,233
Senate Minority Floor Leader	\$38,313	\$39,233
Representatives	\$36,813	\$37,733
Speaker of the House	\$39,313	\$40,233
Speaker Pro Tem of the House	\$38,313	\$39,233
House Majority Floor Leader	\$38,313	\$39,233
House Minority Floor Leader	\$38,313	\$39,233

The total additional cost to the state of Missouri for the recommended salary adjustments to all General Assembly members is \$176,881 in FY 2018 and an additional \$181,303 in FY 2019.

To the extent members of the General Assembly are entitled to receive a per diem, they shall receive \$150 per day of service.

To the extent members of the General Assembly are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

2) FOR STATEWIDE ELECTED OFFICIALS

This schedule specifically authorizes a two year compensation approach for all statewide elected officials

The compensation payable to the Governor of the State of Missouri for fiscal years beginning July 1, 2017 (FY 2018) and July 1, 2018 (FY 2019) shall be increased 8% each year, which brings the salary equivalent to \$144,527 for FY 2018 and \$156,089 for FY 2019.

The compensation payable to the Lieutenant Governor of the State of Missouri for fiscal years beginning July 1, 2017 (FY 2018) and July 1, 2018 (FY 2019) shall be increased by 8% each year, which brings the salary equivalent to \$93,403 for FY 2018 and \$100,875 for FY 2019.

The compensation payable to the Attorney General of the State of Missouri for fiscal years beginning July 1, 2017 (FY 2018) and July 1, 2018 (FY 2019) shall be increased by 8% each year, which brings the salary equivalent to \$125,752 for FY 2018 and \$135,812 for FY 2019.

The compensation payable to the State of Missouri Treasurer, the Missouri Secretary of State, and the State of Missouri Auditor for fiscal years beginning July 1, 2017 (FY 2018) and July 1, 2018 (FY 2019) shall be increased 8% each year, which brings the salary equivalent to \$116,366 for FY 2018 and \$125,675 for FY 2019.

The total additional cost to the state of Missouri for the recommended salary adjustments to all statewide elected officials is \$54,884 in FY 2018 and an additional \$57,023 in FY 2019.

To the extent statewide elected officials are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City,

To the extent statewide elected officials are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

3) FOR JUDGES

The salary for judges shall continue to be calculated under the formula in effect on December 1, 2016. Any change in the salary under the formula shall be effective on July 1 and calculated on the basis of the federal judicial salaries in effect on the previous January 1.

To the extent judges are entitled to receive a per diem, they shall receive 100% of the standard federal per diem established by the Internal Revenue Service for Jefferson City.

To the extent judges are entitled to receive any mileage reimbursement, they shall receive 100% of the standard mileage rate established by the Internal Revenue Service.

C. ADDITIONAL RECOMMENDATIONS

The members of the Commission noted that there was very little time for analysis of salary information from the public and private sectors, and correspondingly limited time for public notice of the Commission's meetings. The Commission makes the following recommendations:

- Several more months for the Commission to hold meetings before the report's due date.
- More advance notice and more overall publication of the public meetings. Specifically, the Office of Administration should utilize the State's social media accounts, including Facebook, Twitter, and Snapchat to publicize the meetings several weeks in advance.
- An additional on-the-record public meeting should be held at the campus of Southeast Missouri State University.
- The General Assembly, if it wishes not to approve its own pay raises, should consider the concept of
 decoupling the salary schedule from the judges and the statewide elected officials.
- If decoupling is not considered an option, the General Assembly should expand the Commission's
 recommendations. Given the politically charged nature of approving, or being seen as having
 approved, one's own pay increase, the General Assembly should consider eliminating the current
 structure whereby it may reject reports by a two-thirds majority vote of both houses.

D. CONCLUSION

The members of the Commission had the opportunity to review the 2008, 2010 and 2014 reports of the previous commissions and quickly understood the daunting task at hand. Without regard to the political affiliations of any current legislative or executive office holder, the Commission respectfully examined the value of each of these positions relative to their respective responsibilities. The statewide elected appointments are full-time positions and, when compared with similar private or public entities, the Commission determined that these positions are substantially underpaid for the responsibilities required.

Additionally, the Commission determined that although the legislator position may appear to be a parttime role in a citizens' legislature, the time required for the person elected to one of these positions is most often a full-time responsibility. The position entails more than just a January to mid-May, Monday through Thursday schedule. Constituents need their legislators available for comments, concerns, and assistance year-round.

The Commission accepted the comparative salary information, the constitutional duties for the elected positions, and other relevant data requested and provided in its consideration of appropriate compensation. We noted that the statewide elected officials and legislators have foregone raises for the past nine years. This information provided the basis for the analysis of the salary gaps existing between Missouri public servants and other states' public servants and private entities. Therefore, we feel it is important to begin a process of compensating these individuals an appropriate "worth value" for their services, and this is the first step toward resolving such inequities.

The Commission would also benefit from formal testimony or communication from each of the state's constitutional officers, from a representative of the state's judiciary, and from the leadership from both houses of the General Assembly. Information from these officers will provide the Commission with a deeper understanding of their view of these issues. Although their testimony would in no way bind the deliberations of the Commission, their perspectives would serve to better inform the Commission.

This Commission met six times, including four public hearings in different geographical locations, one discussion meeting and a final report approval meeting. The meeting information is referenced in Section D of this report, which also includes a list of the Commission members.

We hope that this report is given appropriate consideration to achieve a fair and equitable compensation for our Missouri leaders, with the expectation that it will encourage and allow even more Missouri citizens to consider a public servant role.

WHEREAS, to promote public awareness of the dangers of this deadly cancer and of asbestos exposure, the need for treatment protocols, and funding for research, Mesothelioma Awareness Day was started by Meso Foundation volunteers in 2004, and September 26th was designated as the day to (I) remember the victims of mesothelioma, (ii) publicize the dangers of asbestos exposure, (iii) offer hope for those who suffer with the disease today, and (iv) focus on and highlight the need for research support and a cure for mesothelioma; and

WHEREAS, the State Tax Commission, in accordance with Section 137.021, RSMo, did on December 29, 2015, propose a value for each of the eight grades of agricultural and horticultural land for the 2017 and 2018 assessment years, with changes to grades 1 through 4; and

2016 — HCR 73. Relating to the disapproval of the Missouri State Tax Commission's recommendations regarding the value for each grade of agricultural and horticultural land based on productive capability.

Whereas, cystic fibrosis, commonly referred to as "CF", is a genetic disease affecting approximately 30,000 children and adults in the United States and nearly 70,000 children and adults worldwide, 717 of whom live in Missouri; and

Whereas, a defective gene causes the body to produce an abnormally thick, sticky mucus that clogs the lungs, and these secretions produce life-threatening lung infections and obstruct the pancreas, preventing digestive enzymes from reaching the intestines to help break down and absorb food; and

Whereas, more than 10 million Americans are symptomless carriers of the defective CF gene, and CF occurs in approximately one of every 3,500 live births in the United States; and

Whereas, the median age of survival for a person with CF is 39.3 years; and

Whereas, with advances in the treatment of CF, the number of adults with CF has steadily grown, and approximately 900 new cases of CF are diagnosed each year; and

Whereas, fifty percent of the CF population is 18 years of age and older, and people with CF have a variety of symptoms attributed to the more than 1,800 mutations of the CF gene; and

Whereas, infant blood screening to detect genetic defects is the most reliable and least costly method to identify persons likely to have CF; and

Whereas, early diagnosis of CF permits early treatment and enhances quality of life and longevity and the treatment of CF depends on the stage of the disease and the organs involved; and

Whereas, clearing mucus from the lungs is an important part of the daily CF treatment regimen, and other types of treatments include inhaled antibiotics and pancreatic enzymes, among others; and

Whereas, there are 8 world-class treatment centers in Missouri which specialize in the diagnosis of CF and the care of persons with CF; and

Whereas, a critical component of treating patients with CF includes access to innovative treatments, which can play a crucial role in the lives of patients with CF; and

Whereas, improving the length and quality of life for people with CF starts with awareness; and Whereas, the brachial plexus is a network of nerves that conducts signals from the spine to the shoulder, arm, and hand; and

Whereas, injury to these nerves can result in lack of muscle control or feeling in the arm or hand, including Erb's palsy:

Now Therefore Be It Resolved that the members of the House of Representatives of the Ninety-eighth General Assembly, Second Regular Session, the Senate concurring therein, hereby designate the month of May of each year as "Cystic Fibrosis Awareness Month" and the month of October of each year as "Brachial Plexus Awareness Month" in Missouri.

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to send a properly inscribed copy of this resolution to the Governor for his approval or rejection pursuant to the Missouri Constitution.

Whereas, the Department of Health and Senior Services filed a proposed rule 19 CSR 15-8.410 on December 26, 2014, and filed the order of rulemaking with the Joint Committee on Administrative Rules on May 1, 2015; and

Whereas, the Joint Committee on Administrative Rules held a hearing on May 12, 2015, and has found 19 CSR 15-8.410, lacking in compliance with the provisions of Chapter 536, RSMo;

Now Therefore Be It Resolved the General Assembly finds that the Department of Health and Senior Services has violated the provisions of Chapter 536, RSMo, when it failed to comply with the provisions of sections 536.014, 536.200, 536.205, 536.300, and 536.303, RSMo; and

Be It Further Resolved that the Ninety-eighth General Assembly, Second Regular Session, upon concurrence of a majority of the members of the Senate and a majority of the members of the House of Representatives, hereby permanently disapproves and suspends the final order of rulemaking for the proposed rule 19 CSR 15-8.410 Personal Care Attendant Wage Range; and

Be It Further Resolved that a copy of the foregoing be submitted to the Secretary of State so that the Secretary of State may publish in the Missouri Register, as soon as practicable, notice of the disapproval of the final order of rulemaking for the proposed rule 19 CSR 15-8.410, upon this resolution having been signed by the Governor or having been approved by two-thirds of each house of the Ninety-eighth General Assembly, Second Regular Session, after veto by the Governor as provided in Article III, Sections 31 and 32, and Article IV, Section 8 of the Missouri Constitution; and

Be It Further Resolved that a properly inscribed copy be presented to the Governor in accordance with Article IV. Section 8 of the Missouri Constitution.

WHEREAS, in the United States, one suicide occurs on average every 12.8 minutes; and

WHEREAS, in the United States, over one million people attempt suicide each year, and nearly five million people are survivors of a suicide of a loved one or friend; and

- a Section 67.2505 was contained in four bills. HB 795 and SB 1155 contained identical language. HB 833 and SB 732 contained identical language. Due to conflicting language, two versions of this section are printed. Version 1 contains the merged language of HB 795 and SB 1155. Version 2 contains the merged language of HB 833 and SB 732.
- b Section 100.850 previously contained two versions with identical text, however, one section contained a contingent expiration date. Due to the differences in subsection 5 in HB 1182, SB 1155, and SB 1394, three versions of this section are printed.
- c Section 135.766 was repealed by SB 894 in 2000. SB 894 was declared unconstitutional as a violation of the clear title requirement of Article III, Section 23, of the Missouri Constitution, rendering the repeal of this section ineffective. HB 1603 authorized the reprinting of this section to indicate that this section is still valid and effective law.
- d Section 1 and Section B from SB 960 were combined and codified as subsection 13 of section 137.106. The first sentence of subsection 13 (the language contained in Section 1 of SB 960) became effective 6-28-04.
- e Section 1 from SB 966 was added as subsection 4 of section 288.330. Subsection 4 became effective 8-28-04, but the rest of the section became effective 7-1-04.
- f Section 288.397 was enacted by HB 1268. SB 966 repealed the language enacted by HB 1268.
- g Section 301.130, as amended by SB 1233, does not become effective until 1-1-07.
- h Sections 301.280 and 577.080, as amended by SB 1233, do not become effective until 1-1-06.
- i Sections 302.225, 302.302, 302.309, 302.700, 302.725, 302.740, 302.755, 302.756, 302.760, and 577.054, as amended by SB 1233, do not become effective until 9-30-05.
- j Section 302.272 was contained in three bills. Due to a difference in effective dates, two versions of this section are printed. Version 1 contains the merged language of all three bills, effective 9-30-05. Version 2 contains the merged language of HB 1453 and SB 968, effective 8-28-04.
- k Section 319.137 previously contained two versions. SB 901 repealed the version enacted in 1995 by SB 3 and amended the version enacted in 1995 by HB 251.
- 1 Section 332.362 is new material, but was given an existing section number in the bill (332.361) as a typographical error.
- m Sections 365.020, 365.080, and 365.100, as amended by SB 1233, do not become effective until 8-28-05.

15656 SECTIONS INVOLVED IN ENACTMENTS
94TH GENERAL ASSEMBLY, FIRST REGULAR SESSION, 2007

- a Section 8.177 previously contained two versions. SB 322 repealed the version enacted in 2005 by HB 353. SB 322 did not repeal the version enacted in 2005 by HB 487, therefore it is still existing law.
- b Section 44.045 previously contained two versions. HB 579 repealed the version enacted in 2005 by SB 420 & 344 and amended the version enacted in 2005 by HB 58.
- c Section 52.315 was contained in two bills. Version 1 contains the language from SB 22, Version 2 contains the language from SB 497.
- d Section 67.1000 previously contained two versions. Both HB 795 and SB 22 amended the version enacted in 1998 by SB 820. Only SB 22 repealed the version enacted in 1998 by HB 1587.
- e Section 67.2505 previously contained two versions. HB 205, HB 795, SB 22, and SB 81 all repealed the version enacted in 2004 by HB 833 merged with SB 732 and amended the version enacted in 2004 by HB 795, et al. merged with SB 1155.
- f Section 86.1230 was contained in two bills. Version 1 contains the language from SB 172 and Version 2 contains the language from SB 406.
- g Section 94.875 was contained in two bills. HB 205 amended the section and SB 22 repealed HB 205 and further amended the section.
- h Section 99.820 was addressed in HB 741. HB 327 amended this section, but was vetoed. HB 741 repealed the HB 327 language and further amended the section. However, due to a technical drafting error in HB 741, the language from SB 11 in 2003 was not repealed and two versions of this section existed. This was corrected in the 2007 1st Extraordinary Session, therefore only one version of this section appears in the 2007 RSMo Cum. Supp.
- i Section 99.825 was addressed in HB 741. HB 327 amended this section, but was vetoed. HB 741 repealed the HB 327 language and further amended the section. However, due to a technical drafting error in HB 741, the language from SB 1 in the 1997 2d Extraordinary Session was not repealed. Therefore two versions of this section exist, Version 1 contains the language from 2007, and Version 2 contains the language from 1997.

New	Amended	Repealed	Bill	

- j Section 171.035 was contained in two bills. Version 1 contains the language from SB 376 and version 2 contains the language from HB 678.
- k Section 192.632 was contained in three bills. Due to SB 577 placing an expiration date on the section, two versions of this section are printed. Version 1 contains the merged language of HB 780 and SB 308. Version 2 contains the language of SB 577.
- 1 Section 208.755 was addressed in SB 577. SB 577 only repealed the language that was passed in HB 327, which was vetoed. Therefore, there is no effect on the section. It is still existing law and was not amended in 2007.
- m Section 210.570 was contained in SB 84, it has a contingent effective date contained in section 210.580.
- n Sections 210.620, 210.622, 210.625, 210.635, 210.640 were amended in SB 84 with a contingent effective date contained in Section B, which was codified as section 210.650.
- Section 210.630 and 210.700 were repealed by SB 84 with a contingent effective date contained in Section B, which was codified as section 210.650.
- p Section 227.366 is new material but was given an existing section number in HB 56 (227.376) as a typographical error.
- q Section 301.190 previously contained two versions because of a delayed effective date. SB 82 repealed the version enacted in 2005 by HB 487 merged with SB 488 and amended the version enacted in 2006 by SB 583.
- r Section 301.566 previously contained two versions because of a delayed effective date. SB 82 repealed the version enacted in 2004 by HB 1288 and amended the version enacted in 2004 by SB 1233, et al.
- s Section 311.178 was contained in two bills. Subsection 6 of the existing section said that subsections 2, 3, and 4 terminated January 1, 2007. The Revision Bill, SRB 613, attempted to clean up the section by repealing subsections 2, 3, 4, and 6 and renumbering subsection 5. However, SB 299 repealed only subsection 6 containing the expiration date, which left subsections 2, 3, and 4 still in effect. Therefore, the Revision Bill falls pursuant to section 3.065, and the language as passed by SB 299 will appear in the 2007 RSMo Cum. Supp.

- v Section 337.649 language was contained in two bills. These sections will be merged and will be codified as section 337.649 even though HB 555 gave the bill section number 337.640.
- w Sections 376.1500 and 376.1516 were contained in two bills. Version 1 contains the language from HB 818. Version 2 contains the language from SB 66.
- x Sections 381.011 and 381.161 were considered as new sections in the database because they were originally repealed by SB 894 in 2000. They were treated as amended sections in SB 66 because SB 894 was ruled unconstitutional on procedural grounds in 2002.
- y Sections 381.410 and 381.412 previously contained two versions. SB 66 repealed both versions and enacted entirely new language.

- a Section 86.1230 previously contained two versions. Both HB 1710 and SB 980 repealed the version enacted in 2007 by SB 172. HB 1710 repealed and reenacted the version enacted in 2007 by SB 406. SB 980 did not include the version enacted in 2007 by SB 406, therefore that language is still existing law.
- b Section 89.120 previously contained two versions. Both HB 1849 and SB 1002 amended the version enacted in 1998 by HB 977 & 1608 and repealed the version enacted in 1998 by HB 1352.
- c Section 99.825 previously contained two versions. Both HB 2058 and SB 718 amended the version enacted in 2007 by HB 741 and repealed the version enacted in 1997, Second Extraordinary Session, by SB 1.
- d Section 130.032 had been the subject of a court ruling on a constitutional issue. SB 1038 repealed the version enacted in 2006 by HB 1900, as well as the prior version enacted in 1997 by SB 16.
- e Section 143.121 was contained in two bills. SB 748 only amended subsection 2(e), but contained an emergency clause and became effective June 23, 2008. SB 1181, et al., added a new subsection 8, but did not amend any existing language, and became effective August 28, 2008.
- f Section 144.057 contains language found in three bills. The language was identical in all three bills, but SB 1073 called it section 144.059. All three sections were merged and given section number 144.057.
- g Section 227.393 contains language found in two bills. Both bills named a memorial highway for Lance Corporal Leon B. Deraps. HB 1575 called it section 227.393. SB 753 called it section 227.394. Both sections were merged and given section number 227.393.
- h Section 227.396 contains language found in two bills. Both bills named a memorial highway for Rick Seiner. HB 1887 called it section 227.397. SB 753 called it section 227.396. Both sections were merged and given section number 227.396.
- i Section number 227.397 was contained in two bills. HB 1887 contained language naming a memorial highway for Rick Seiner. SB 930 & 947 contained language naming a memorial highway for Jeff McBride. Section 227.397 from HB 1887 was recodified as section 227.396 and merged with SB 753. Section 227.397 from SB 930 & 947 retained the language naming a memorial highway for Jeff McBride.
- j Section 577.023 was contained in two bills. Due to a difference in effective dates, two versions of this section are printed. Version 1 contained the merged language of both bills, effective July 1, 2009. Version 2 contained the language from just HB 1715, effective July 3, 2008.
- k Section 644.570 previously contained two versions. SB 1040 amended the version enacted in 1999 by HB 450 and repealed the version enacted in 1999 by SB 160 & 82. This section contained a contingent effective date.

New Amended Repealed Bill

- c. Section 144.030 was contained in two bills. The language in HB 1442 did not contain an emergency clause, but SB 928 did. Therefore, when merged, subdivision (39) of subsection 2 became effective August 28, 2010, while the remainder of the section became effective May 12, 2010.
- d. Sections 188.027, 188.039, and 376.805 were contained in SB 793. The governor took no action on SB 793, but the bill became law pursuant to Article III, Section 31(h).
- e. Section 192.632 previously contained two versions. HB 1516 repealed the version enacted in 2007 by SB577. The version enacted in 2007 by HB 780 merged with SB 308 was not repealed or amended and is therefore still existing law
- f. Sections 324.1102 and 324.1106 previously contained two versions. HB 2226, et al., amended the versions enacted in 2007 by HB 780 and repealed the versions enacted in 2007 by SB 308.
- g. Section 324.1118 previously contained two versions. HB 2226, et al., repealed the version enacted in 2007 by HB 780 and amended the version enacted in 2007 by SB 308.
- h. Section 339.040 was contained in two bills. Due to possible conflict, two versions of this section are printed. Version 1 contains the language from HB 1692, et al. Version 2 contains the language from SB 754.
- Section 375.1175 was contained in three bills (HB 1764, SB 583 and SB 834). HB 1764 contained a referendum clause and was passed by the voters on August 3, 2010.
- Section 493.055 was found in HB 1692, et al. The language in this section is identical to the language found in Section 2 from HB 481 in 2009, which was codified as section 442.018.
- Section 622.010 previously contained two versions. HB 1965 repealed both versions of this section.
- The following sections were repealed by SB 630, effective March 1, 2011. Therefore, two versions of these sections are printed. Version 1 contains the repealer line with an effective date of March 1, 2011. Version 2 contains the existing language which is in effect until March 1, 2011.
